

Trees for Southfield is a program that provides trees for the beautification of residential, corporate, and commercial properties within the city. Planting a tree can beautify and improve the value of your property and also help moderate the effects of heat, sound air pollution, excess storm water run off, and soil erosion. Trees also can be planted to memorialize or celebrate a special person or event.

A variety of trees are available and tree selection is typically 1 3/4 - 2 1/2 inch diameter with height ranging from 6'- 14' tall depending on species. The trees are exclusively selected by the city forester for quality, site value and esthetics. A shade, flowering, or evergreen tree will be delivered to your Southfield site for \$175.00 per tree. The responsibility for preparing the hole and planting of the tree will be the purchaser. For \$200.00 per tree forestry personnel will plant a tree on (right of way area only) generally between sidewalk & curb. After all applications have been submitted arrangements will be made to discuss your specific planting location and tree species. A \$50 per tree deposit or total order cost must be submitted with application, balance is due in full prior to delivery.

**TREE ORDER APPLICATIONS MUST BE SUBMITTED BY: MARCH 15 FOR THE SPRING ORDER AND SEPTEMBER 1 FOR THE FALL ORDER.**
