<td>The Maintenance Supervisor of the Assisted Living Complex reviewed surveillance video. At approx. 2:45am the video shows a White High-Top Conversion Van, pull into the complex. The van had glass windows on all sides of the vehicle. The video shows a B/M walk up to a Silver Ford Fusion in the parking lot. He walks up to the driver’s side and looks into the vehicle. A second B/M walks up to the vehicle and attempts to bust out the rear driver side window by prying with some type of device. After an unsuccessful attempt, another, heavier B/M walks up to the vehicle and is successful in busting out the window. The smaller B/M goes inside the vehicle through the busted out window. He then exits, back out the busted out window. There were a total of nine vehicles in the parking lot that were broken into. Nothing appears to have been taken from any of the vehicles. ### Special Attention: Larceny from Vehicles
How to prevent this from happening to you!

- Citizens should never leave anything of value inside their vehicle. (Especially Handguns, Purses, Wallets, Cash & Cell Phones!)

- If you have a garage you should park your vehicle in the garage and lock the garage.

- Wheel Locks are a deterrent but don’t leave the wheel lock key in the interior of your vehicle, especially the center console or glove box. This is the first place they will look for the wheel lock.

- If you don’t have a garage, try to park your vehicle as close to your residence as possible.

- If you hear any loud noises near where your vehicle is parked, especially during the late night or early morning hours, attempt to look outside without alerting anyone and if someone is tampering with your vehicle immediately call 911, (Do Not Approach or Scare the Suspects Away) give Police Dispatchers as much information about the suspect(s) and suspect vehicles as you can. Stay on the phone with Dispatchers until the Police arrive.
