- Lots of lighting around the area(s) that you park your vehicles is also very beneficial. Criminals don’t like to work in well lighted areas. They prefer to work in darkness because it’s difficult to see them.

Special Attention:
Larceny of Catalytic Converters!
Recently we have seen an increase in Larceny of Catalytic Converters.
The M.O. in most cases, the suspect(s) will park next to the attacked vehicle and the passenger will exit suspect vehicle with a portable cordless electric saw. Suspect will immediately crawl under the attacked vehicle and cut the catalytic converter off the vehicle, get back into suspect vehicle and flee the area. The suspect vehicle in several of the incidents has been a Mini Van (Chrysler Town & Country) with a sliding side door making it easy to get in and out with the catalytic converter.
A recent incident that occurred in the 23000 Block of Greenfield Rd the victim was walking back out to her car and observed a light brown sedan, occupied by three individuals parked next to her vehicle. As she approached her vehicle the suspects fled the area. Victim discovered her catalytic converter had been cut off right after this.
