Most women that have their purses with them will put their purses in the shopping cart in the area where a child would normally sit. This makes it very easy for someone that is walking by your shopping cart to reach into your purse and take your wallet. Most victims don’t realize that their wallet is misses until they go to pay for their items. Citizens should keep their purses zipped up and put their purses down in the basket with other items and never walk away from their shopping cart.</td>

Special Attention: Larceny from Vehicles
How to prevent this from happening to you!

-Citizens should never leave anything of value inside their vehicle. (Especially Handguns, Purses, Wallets, Cash & Cell Phones!)

- If you have a garage you should park your vehicle in the garage and lock the garage.

- Wheel Locks are a deterrent but don’t leave the wheel lock key in the interior of your vehicle, especially the center console or glove box. This is the first place they will look for the wheel lock.

- After parking your vehicle turn your wheels all the way to the right or the left. This will make it difficult to get the lug nuts off the front wheels.

- If you don’t have a garage, try to park your vehicle as close to your residence as possible.

- If you hear any loud noises near where your vehicle is parked, especially during the late night or early morning hours, attempt to look outside without alerting anyone and if someone is tampering with your vehicle immediately call 911, (Do Not Approach or Scare the Suspects Away) give Police Dispatchers
