Citizens that buy merchandise on line and have it delivered to their homes should be aware that in many instances criminals are stealing the packages before they get the packages from their porch or mail boxes. A couple ways to prevent this from happening to you.  

#1 Set up a specific time to have the package delivered and make sure your there to personally receive the package.  

#2 Don’t have the package delivered to your residence, instead pick up the package at the Carrier Distribution location.  

Victim stated he had a package delivered to his residence in the 22000 Block of Nottingham. Victim received confirmation of the delivery and when he went to pick up the package approx. 25 minutes later it wasn't there. Victim checked with the apartment complex and they were unable to provide him with any information. |

Tips:  
❖ Ensure your vehicle is locked at all times and valuables are out of sight.  
❖ Thieves wait for the right time and will move quickly
