December 22, 2015

Honorable Mayor, Members of City Council and Residents of the City of Southfield Municipal Building Southfield, Michigan

RE: 2014-15 COMPREHENSIVE ANNUAL FINANCIAL REPORT LETTER OF TRANSMITTAL

Dear Sirs and Mesdames:

The Comprehensive Annual Financial Report of the City of Southfield, Michigan, for the fiscal year ended June 30, 2015, is submitted herewith, in accordance with provisions of the Southfield City Charter and the laws of the State of Michigan. This report, prepared by the City's Fiscal Services staff, represents the official report of the City's financial operations and condition to the City's residents, elected officials, investment firms, rating agencies and other interested parties. Responsibility for the accuracy, completeness and fairness of the financial data herein, including all disclosures, rests with the City. The annual audit of the City of Southfield financial statements was conducted by the independent accounting firm of Plante & Moran, PLLC.

This report also includes a separate section on Component Units, as required by Statement Number 61 of the Government Accounting Standards Board (GASB). Component units are included because of the significance of their operational or financial relationships with the City. The component unit columns in the combined financial statements include the financial data of the City's six component units. These units are reported in a separate column to emphasize that they are legally separate from the City. They include the Economic Development Corporation, the Brownfield Redevelopment Authority, the Joint-Local Development Finance Authority, the Downtown Development Authority, the Tax Increment Finance Authority, the Local Development Finance Authority, Section 8 & Housing Commission and the Southfield Growth Corporation. Descriptions of each component unit appear in Note 1.

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The introductory section, which is un-audited, includes this letter of transmittal, an organizational chart and a list of the City of Southfield's principal elected and appointed officials. The financial section, which is audited, includes the Management Discussion and Analysis, basic financial statements and the combining and individual fund statements and schedules. The statistical section, which is un-audited, includes selected financial and demographic information, generally presented on a multi-year basis.

The enclosed data is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and the results of operations of various funds of the City. This letter should be read in conjunction with the Management's Discussion and Analysis. Included are disclosures necessary to enable the reader to gain an understanding of the City's financial activities.

Mayor Kenson J. Siver

Council President Myron A. Frasier City Clerk Nancy L. M.Banks City Treasurer
Irv M. Lowenberg

The City of Southfield is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-133, Audits of State and Local Governments. The single audit report includes independent auditor review and comments on internal controls, legal/regulatory compliance, and any findings of questioned costs.

CITY OF SOUTHFIELD, MICHIGAN: MUNICIPAL OVERVIEW

The City of Southfield is comprised of over 26 square miles of abundant natural beauty, well-maintained homes and neighborhoods and majestic skyscrapers. Southfield offers a complete living community, featuring a nationally recognized public school system, several private and parochial schools and numerous colleges and universities. Conveniently located in Oakland County, Southfield is not only the Center of It All™ geographically, but also the business center of southeast Michigan. With a daytime population nearing 175,000, over 27 million square feet of office space, and over seven million square feet of retail and industrial space, Southfield is truly Michigan's business center. In fact, Southfield boasts more office space than the central business districts of Cleveland, Cincinnati, Detroit, Indianapolis or Kansas City. Approximately 9,000 businesses call Southfield home, including over 100 "Fortune 500" companies spanning several industries. An impressive 98 percent of the City is accessible to high-speed fiber optics, broadband and satellite services with several backbones traversing the community. Over the years, Southfield has steadily grown to be one of the premier business and residential addresses in Michigan—a center of commerce nestled among quaint, tree-lined neighborhoods.

Intersected by I-696, U.S. 10, U.S. 24, M-39, M-10 and many other major highways, Southfield is centrally located for convenient access to businesses, their customers and suppliers. Its central location places Southfield just 20 minutes away from almost anywhere in metro Detroit, including Metropolitan Airport, downtown Detroit, and the international borders of Canada. The City of Southfield remains an important international business community with approximately 25 percent of all Oakland County's businesses and international firms and nearly half of all its Japanese firms. Southfield is also proud to be home to more than 71,000 residents and a wide variety of housing options, from single-family homes and condominiums to townhomes and apartments. Residents, businesses and visitors alike come to Southfield for its central location, great recreational opportunities and easy access to all of southeastern Michigan. It is no coincidence that the City of Southfield was named one of the nation's most livable metro-area suburbs by Forbes magazine for its large commercial district, affordable housing, quality schools and safe neighborhoods.

Southfield's modern infrastructure, diverse mix of residential and business cultures, focus on beautification and appearance, and excellent City services have created a statewide model of a successful community that has helped to provide a solid foundation for the City's long-term sustainability. City leaders continue to maintain a constant focus on providing quality city services while doing so with unprecedented reductions in property tax revenues, state shared revenues and state road funding (Act 51) as a result of the great recession and a struggling state economy. Despite these major challenges, the City of Southfield stands ready to serve as a leader in the economic comeback of this region and the State of Michigan.

Southfield's large business community dates back to the mid 1950's. Corporations seeking spacious suburban offices were attracted to Southfield, and within a half-decade, dozens of high-profile firms

called Southfield home. Growth was spurred by the nation's first regional shopping center, Northland Center, which opened in Southfield in 1954. City leaders showed considerable foresight over the years in creating a high-visibility business community along major roadways, with neighborhoods strategically tucked into adjacent acreage and subdivisions.

Southfield is operated under a Council/Administrator form of government. The seven-member City Council is elected at two-year intervals on a non-partisan ballot; the three highest vote-getters receive four-year terms and the fourth serves a two-year term. The Council President, who presides over meetings, is elected by Council colleagues. Special Council committees review and make policy recommendations on finance, zoning, transportation, state legislation, appointments and other key issues.

The Mayor, elected to a four-year term on a non-partisan ballot, has veto power over Council actions but does not vote on legislative matters. A two-thirds Council majority vote is needed to override a Mayoral veto. The Mayor also appoints the City Attorney, City Assessor, City Planner and Emergency Management Director, with appointment confirmation by City Council. Also elected to four-year terms, the City Clerk and City Treasurer serve in full-time capacities. The City Administrator, appointed by and reporting directly to City Council, serves as chief administrative officer and oversees daily operations and policy implementation.

The City's elected officials hold memberships and often play a leadership role in a wide range of professional organizations, including the National League of Cities, Michigan Municipal League, United States Conference of Mayors, Municipal Clerks' Association, Municipal Treasurers' Association, and the Government Finance Officers' Association. Management also holds leadership positions or participates in numerous professional organizations, including the International City/County Management Association, Michigan Government Finance Officers' Association, American Public Works Association, International Code Council, Building Owners and Managers' Association, National Association of Telecommunication Officers and Advisors, Public Relations Society of America, and the City-County Communications & Marketing Association.

Southfield is served by many long-tenured elected officials and administrative staff. City Council members average more than 10 years of service while the Mayor, City Treasurer and City Clerk typically average even longer terms. The average tenure of the City's management groups is more than 20 years, providing stability and proven leadership for City operations. Within the group, many hold advanced academic degrees, numerous professional designations and professional certifications in their respective fields. In addition, many have earned special recognition through election to state or national association offices, as instructors for professional seminars, or as guest lecturers at universities.

The City's Exempt Service Staff consists of management group employees selected by authorized elected or appointed officials. These positions are executive level, in general, and not part of the civil service system. The Mayor and Council utilize the annual budget process to review salary ranges for exempt personnel. Other City employment classifications are reviewed either through collective bargaining or the Civil Service Commission.

ECONOMIC PROFILE

Recent economic data shows that the State of Michigan ended 2015 on a more positive note. The State's unemployment rate decreased from 8.7% in July 2014 to 4.7% in September 2015. The City of Southfield's unemployment rate decreased to 6.60% from 10.20% in September 2014. It is anticipated that Michigan's economy will continue to grow and expand gradually over the next few years and the unemployment rate will continue to improve.

The City of Southfield is home to seven colleges, universities and technical schools, including Lawrence Technological University, Oakland Community College, Central Michigan University, DeVry University, Sienna Heights University, Specs Howard School of Broadcast Arts, and University of Phoenix. Residents of Southfield and surrounding communities have a wide array of skilled trades and higher educational opportunities.

The City of Southfield ranks in the top three in terms of the population base in Oakland County. The U.S. Census Bureau identified 71,739 residents in Southfield in the 2010 census, making the City of Southfield one of the top three most populous cities in Oakland County. The median household income of our residents is \$49,548. Personal income in the City has risen in recent years, which is an indication of a healthy economy. Of the total population, it is estimated that 44% have degrees in higher education, which will help in stabilizing unemployment in the community.

For the City, the economic outlook continues to be guarded. Cost pressures, particularly in the healthcare and pension area, continue to challenge the City's finances. Pensions, retiree healthcare and other post-employment benefits made up 63% of the City's long-term liabilities. The SERS pension plan is 78.1% funded, the Fire and Police pension plan is 84.6% funded, and the Retiree Health Care Trust Fund is funded at 14.97%. While property values have began to rise, property taxable values are nowhere near the pre-recession values. As a result, revenue growth for the General Fund will remain limited over the next several years due to the limitations of Proposal A and the Headlee Amendment and the City's inability to expand revenue beyond the rate of inflation. The City is levying at its maximum millage levels allowable by charter.

The City Council and City Administrator are committed to strategies designed to ensure the long-term fiscal health of the City. The budget serves as the foundation for the City's financial planning and control. As part of the budget process, management prepares an annual budget for the General Fund and all other funds and presents to City Council for adoption. Overall, the City's current budget emphasizes cost containment and maintenance of existing service levels. Therefore, the City commits to the following:

- Ensure long-term financial sustainability by spending within our means and delivering services in a cost-effective and efficient manner;
- Establish and maintain reserves at appropriate levels, limiting reliance on one time revenues and fund balance draws; and
- Plan for improvements to facilities and infrastructure, and manage the City's infrastructure and
 capital assets to maximize long-term community benefit. The City will adopt a capital
 improvement plan annually to ensure that the City's infrastructure needs are identified and
 budgeted over at least a five year period.

The City of Southfield sold its 2015 Library Building Authority Refunding Bonds, in the amount of \$21,765,000, to refinance the bonds related to the original construction of the library. The bonds were refinanced at an average lower interest rate of 2.86 percent, as compared to the original rate of 5.04 percent, saving the library almost \$4 million over the next 15 years with a final maturity of 2030.

In preparing to sell the bonds, the City through the Library Building Authority, requested a Standard & Poor's Rating Services ("Standard & Poor's") evaluation of the City of Southfield's credit quality. Standard & Poor's affirmed the City's strong underlying bond ratings of "AA."

According to Standard & Poor's, the 'AA' rating reflects their assessment of factors, including:

- Strong management conditions, with "good" financial policies and practices;
- Strong budgetary performance, with a positive result in both the general fund and at the total governmental fund level in fiscal 2014 (year ended June 30);
- Very strong budgetary flexibility, with an available fund balance of 31.2% of operating expenditures at fiscal year-end 2014; and
- Very strong liquidity, with strong access to external liquidity if necessary.

The financing was conducted by the Michigan investment banking office of the brokerage firms, Fifth Third Securities, and Stifel, Nicolaus & Company, Inc., the financial advising firm, Public Financial Management, and the law firm serving as bond counsel, Miller, Canfield, Paddock and Stone, P.L.C.

ECONOMIC DEVELOPMENT & MAJOR INITIATIVES

Road and Highway Improvements

On November 4, 2014, City of Southfield voters approved a proposal for up to 2.58 mills to pay for up to \$99 million in road construction bonds spread out over eleven years. The estimated millage to be levied in 2015 is 2.58 mills and the estimated simple average annual millage rate required to retire the bonds is 2.50 mills. The bonds will pay for the cost of acquiring and constructing street improvements throughout the City, consisting of paving, repaving, reconstructing and improving streets, including curb, gutter and drainage improvements and all necessary appurtenances and attachments.

After much initial ground work securing funding and developing plans, the Evergreen Road Improvement Project officially began in June of 2014. The project represents a \$12 million investment, which is part of an overall \$100 million infrastructure investment in roads and bridges throughout the city over the next ten years. The Project involved the total reconstruction of a one-mile segment of Evergreen Road between 10 and 11 Mile from the previous six and seven-lane road into a four-lane boulevard with a roundabout at Evergreen and Civic Center Drive and a roundabout at Evergreen and the north Municipal Campus driveway.

The Evergreen Road Improvement Project incorporated many new amenities that will make the corridor more pedestrian-friendly and attractive, including: a major mid-block crossing and plaza between the two roundabouts, a wide path on the east side of Evergreen from I-696 to Filmore Street with benches and landscaping, as well as decorative street lighting. Innovative stormwater features were also incorporated into the project to provide water quality improvements before discharge to storm sewers. The stormwater drains and water mains were replaced and upgraded — improving the functionality of

the storm sewer system and helping to maximize the lifespan of the City's infrastructure. The City also constructed a rain garden adjacent to the tennis courts and installed pervious pavers behind the curb between the roundabouts. Additionally, the power distribution system at the Southfield Municipal Campus has been relocated from the front lawn to north of the tennis courts. A new electronic message sign was also installed in front of city hall that will relay important city news and events to motorists on Evergreen Road.

The total project cost approximately \$12 million, with \$4.8 million in federal transportation funding for the road reconstruction and \$450,000 from a Michigan Transportation Alternatives Program grant for the pedestrian amenities and stormwater mitigation features. The City's Water & Sewer Fund contributed \$3.5 million and the Major Street Fund contributed \$700,000. The Metro Act Fund provided \$1 million, the City Centre Advisory Board contributed \$100,000 toward the pedestrian amenities, and the Local Improvement Revolving Fund (LIRF) funded the remaining \$1.5 million.

The incorporation of roundabouts will greatly improve traffic flow in the corridor while also reducing the number of serious accidents. The many benefits of roundabouts include improved safety resulting in a 90 percent reduction in fatalities; 76 percent reduction in injuries; and a 35 percent reduction in all crashes. Studies have also shown that accidents that do occur are typically less serious and that roundabouts are safer for pedestrians and bicyclists. Roundabouts have also been proven to greatly improve traffic flow by reducing congestion, decreasing traffic delays and increasing traffic capacity. They are also more environmentally friendly — reducing pollution with fewer stops and hard accelerations — resulting in less vehicle emissions, fuel consumption and noise. Roundabouts are also generally considered to be more aesthetically pleasing than traditional intersections — enhancing and defining corridors and cities.

The project has improved Evergreen Road and the surrounding area in numerous ways, including: the complete replacement of deteriorated pavement; correction of storm water system inadequacies; improved traffic flow and safety; enhanced pedestrian amenities; creation of a strong link between east and west sides of Evergreen; and overall beautification of the corridor and city.

Two transportation projects in the City of Southfield totaling nearly \$4 million were celebrated at a public dedication last November at the Northland Center Parking Lot near the newly renovated Northland Bus Transit Center. That transit center began serving riders in early November. Completion of the other transportation project, Greenfield Road construction between Eight and Nine Mile roads, was also completed in November. The Northland Transit Center renovation is part of the final phase of a multimillion dollar federal grant that is being used to renovate the Northland Transit Center and other projects along Eight Mile Road. The Northland Transit Center renovation is valued at \$748,750 including new concrete and asphalt surfacing and new pedestrian amenities such as landscaping, shelters, benches and trash receptacles. The grant involved collaboration between The Eight Mile Boulevard Association, City of Southfield, Southfield DDA, DDOT, SMART and Northland Center. Parsons Brinckerhoff and WCI Contractors were retained to perform project consulting and improvement work, respectively.

Greenfield Road was reconstructed from Eight Mile Road to north of Nine Mile Road at a cost of \$3.1 million. Of that amount, approximately \$1.75 million was paid for with federal funds. The remainder was

shared by the City of Southfield, Southfield DDA, Oakland County general government and the Road Commission for Oakland County (RCOC). The project involved complete pavement removal and replacement in the southbound lanes of this section of Greenfield Road (the northbound lanes were not reconstructed). The road was reconstructed with concrete, including new curbs and gutters. The project included crosswalk upgrades to meet Americans with Disabilities Act (ADA) requirements as well as the construction of a new City of Southfield water main.

Coasting the Baseline

The City of Southfield launched the Coasting the Baseline Project with a historical land surveying reenactment on July 15, 2014 at Eight Mile and Rutland. The Coasting the Baseline Project is a series of commemorative markers located on Eight Mile or Baseline Road. Each marker is a ten foot tall obelisk that describes the significance of surveying in the settlement of Michigan and as the foundation for property ownership in the state. The baseline became known as Eight Mile Road and runs across Michigan from Wayne County on the east to Van Buren County on the west. The prime meridian was established at 84 degrees, 22 minutes, 24 seconds west longitude, a line drawn straight north from Defiance, Ohio. All subsequent land surveys in Michigan refer to these principal coordinates.

The Southfield Coasting the Baseline Obelisk will join those of other neighboring communities along Eight Mile Road. It is envisioned that markers will stretch from Lake St. Clair to Lake Michigan along the baseline. The markers, designed by Michigan native and world-renowned sculptor David Barr, include engraved references to early surveying tools, land ownership in America and elements of each community's local history and are made from alternating blocks of black and white granite. The site selected for Southfield's Coasting the Baseline marker is at Eight Mile and Rutland on city owned property.

Miracle League Concession Building

The Southfield City Council approved plans last July from the Miracle League of Michigan and Easter Seals of Michigan to construct a new concession building at the Miracle League baseball diamond located in the Southfield Municipal Complex at 26000 Evergreen Road. The 1441-square-foot concession building will include two Americans with Disabilities Act (ADA)-compliant public restrooms as well as a locker room and accessible restroom for the players. The building will also provide office space and storage for the Miracle League, and the concession area will be operated by Easter Seals clients.

The Miracle League is a non-profit organization that provides children with physical or cognitive disabilities an opportunity to play baseball as a team member in an organized league. The City of Southfield is home to Michigan's first Miracle League baseball field that is located at the north end of the municipal complex. The Miracle League of Michigan and Easter Seals of Michigan completed architectural plans for the construction of the concession and restroom building that will be located just west of the Miracle League field. The Miracle League has successfully secured funds, as well as donated labor and materials, to construct the building.

Public Arts Commission

The Southfield City Council unanimously approved an ordinance to establish a Public Arts Commission at the October 20, 2014 City Council meeting. The City Council voted to approve Article VI, Public Arts Commission, to Chapter 4, Boards and Commissions, of Title 1 of the City Code. The ordinance will

create and establish a new Public Arts Commission for the City of Southfield. The Commission will be comprised of nine members, six of whom will be appointed by the City Council, with the remaining three members appointed by the Mayor with Council confirmation.

The City Council determined the need to form a public arts commission to advocate for, promote and participate in the establishment, selection and installation of public artwork in the city. The Public Arts Commission will promote the arts in Southfield by establishing physical works of art in public places throughout the City. The Public Arts Commission will develop a comprehensive public art plan for the City, including: long term objectives, criteria for the selection of artists and works, potential locations for placement, and overall standards and guidelines. Upon completion of the plan, the Commission will present their recommendations to City Council for review and approval. The Commission will also actively raise funds for the acquisition and installation of public works of art through a capital fundraising campaign, application of grants, private sponsorships, donations, and other fundraising strategies.

The City of Southfield purchased the public art that was located at the now defunct Northland Center for \$500,000 in April as a loan from the City that will be recouped by a fundraising campaign. The acquisition included the iconic Bear and Boy sculpture by the late Marshall Fredericks that had been on display at Northland since the mall's opening in 1954. Fredericks was one of six artists commissioned by J.L. Hudson to design sculpture for Northland Center in Southfield, Michigan. At the time it opened in 1954, Northland was the country's largest shopping center as well as the first regional shopping center.

The Public Arts Commission will be sponsoring a development campaign to raise funds for the recently acquired art from the now closed Northland Center. The campaign will include both a public crowd sourcing component as well as corporate underwriting.

Marketing Southfield

The City of Southfield launched a free new app, Spot Southfield, on December 30, 2014 that is available on both Apple and Android smart phones and tablets. The app provides users with detailed information on the go in numerous categories, including:

- 'Eat' a breakdown of various dining options in the city as well as 'nearby' option;
- 'Play' entertainment and recreation activities for the whole family from golf to theatres to nightlife;
- 'Stay' all of the hotel and other accommodation options in Southfield from one night to extended stay;
- 'Shop' from automotive to florists and everything in between;
- 'Events' everything to do in the city in one convenient spot;
- 'Media' from static videos to Cable 15 live, users can also create a special Southfield postcard for their friends, family or themselves;
- 'Find' get where you need to go with this useful tool that helps you navigate your way to your destination; and
- 'Services' allows users to connect with city department or services with ease.

The app was developed in coordination with Bar-Z, an app development company that helps clients to deliver creative content to people on numerous devices. Bar-Z works with clients to make publishing

content to multiple platforms easier. Future plans for the app include the ability for users to report issues in the city such as potholes directly to the appropriate department as well as the option to book golf tee times right from your phone.

The City of Southfield launched a new community engagement Web site, Sustainable Southfield, on January 22, 2015 where citizens could connect, communicate and collaborate with community decision makers and other residents about the future Southfield right from the comfort of their home. To participate, users simply logged on to sustainablesouthfield.mindmixer.com and created their accounts

In 2014, the City Council authorized the City Planner to update the Southfield Comprehensive Master Plan (last Adopted April 2009) in accordance with state law. One goal of the Master Plan is to reposition the City of Southfield to be a vibrant place to work, play and live to meet changing demographic, housing and economic shifts in the near and distant future. Sustainable Southfield is a comprehensive master plan that will establish a holistic guide for the City's future land use as well as balancing the City's social, environmental and economic needs for now and the future.

The goal of the new Web site was to get the community involved in the planning process. Along the way, Sustainable Southfield, was used as an online tool to generate new ideas and feedback from citizens using this interactive and accessible platform. Feedback from the Web site will be used by the City of Southfield to develop plans on a variety of projects, particularly the City's updated Master Plan.

Sustainable Southfield gave contributors a chance to share new ideas, support others' ideas, expand upon existing ideas and provide feedback on initiatives, working with community leaders on a variety of topics online at anytime, anywhere.

A total of 20 different topics that changed every 1-2 weeks were presented over a five month period. The discussion began with topics such as:

- "What are the most important issues facing our community?";
- "How can we create a more connected Southfield?"; and
- "What makes a community sustainable?"

The site also measured and tracked participation, identifying the most interested citizens and most compelling topics. MindMixer's tools made it easy for administrations to communicate back with citizens, and they delivered measurable results and invaluable insights for the planning process.

Neighborhoods and Curb Appeal

Southfield residents have 77 homeowners associations and 53 condominium associations representing their collective interests. The community offers over 17,000 single-family homes and nearly 17,000 multi-family apartments and townhouses. Within Southfield's 26.7 square miles, residential zoning comprises 64 percent of land use, yet 65 percent of the community's tax revenues are generated from business properties. Though considered nearly fully developed, Southfield continues to evolve to meet the ever-changing needs of the community.

The City of Southfield Neighborhood & Information Center (a division of Community Relations) and the Total Living Commission coordinated the creation of a new Southfield Neighborhood Association

Coalition last March. The City reestablished the former Southfield Neighborhood Association, a collective of members from neighborhood associations across the city that became inactive several years ago. The purpose of the new Southfield Neighborhood Association Coalition is to strengthen existing neighborhood associations throughout the city through information sharing on best practices and other resources.

Curb appeal is important in maintaining the City's image and character. Public Works strives to ensure the City's streets, sidewalks, neighborhoods, and business districts remain safe, clean and appealing. Steps include the continuation of programs for ice and snow removal, mowing, and sweeping of three county roads: Lahser, 10 Mile and 12 Mile Roads; an extra sweep through residential streets; increased right-of-way, cemetery, and park mowing; and cleaning of ramps and side slopes during freeway road closures. The Public Works Department also works with the Neighborhood Associations to assist with the maintenance of neighborhood entranceways.

The City of Southfield makes every effort to maintain and repair all roads within the City's jurisdiction in a timely manner. Due to the severity of weather last winter, the City increased the number of crews that were actively repairing potholes to four crews that worked twelve-hour shifts to repair potholes throughout the city on a priority basis. In a typical winter, two four-person crews generally use approximately 300 tons of cold patch in repairing pot holes. Last winter, the City went through more than 450 tons of cold patch. Southfield also established a special hotline (248/796-4000) to report potholes. The Streets and Highway Division of Public Works is responsible for maintaining 246 miles of road within the City. The Division handles all street cleaning; snow and ice removal; tree trimming; street signs; right-of-way mowing; and open drain and storm sewer repair. The Division also performs both targeted and generalized pavement repair as part of the City's Pothole Patrol program.

Beautification efforts are further strengthened through the Neighborhood Entranceway Marker Program administered through the City's Neighborhood and Information Center, a division of the Community Relations Department. In the 2014-15 fiscal year, 11 entranceway projects were funded to improve neighborhood entranceway signs and landscaping based on a dollar-to-dollar match. Additionally, more than 60 individual homeowners, neighborhood and condo associations, and public buildings were recognized for outstanding overall appearance and landscaping from almost 150 nominations through the City's annual Community Pride Awards program. The Southfield Parks & Garden Club, a new grassroots effort led by volunteers, assisted with the judging in addition to working on several other beautification projects throughout the year.

Economic Development Initiatives & Corporate Residents

The City of Southfield signed an official cooperation agreement with the Michigan Economic Development Corporation (MEDC) designed to encourage collaboration, promote economic development and create jobs. The agreement formalizes an already existing partnership between Southfield and the MEDC that ensures collaboration in implementing economic development strategies designed to promote economic growth and to maintain a high quality of life within the region.

The Southfield Brownfield Redevelopment Authority provides major tools and incentives for businesses to revitalize "brownfields," which are environmentally contaminated or functionally obsolete properties. These tools include tax increment financing and small business tax credits to potential developers of

brownfield properties. The ability to offer brownfield redevelopment incentives enables Southfield to entice new development to areas that may otherwise be overlooked due to the additional costs of redevelopment.

The Southfield City Council voted in favor to enter a five-year extension of the Automation Alley Smart Zone at the July 21, 2014 City Council Meeting to further foster economic development in Southfield and the metro area. The Michigan Economic Development Corporation (MEDC) is requiring all existing Smart Zones to seek an extension and modify their original agreements to encourage and foster greater regionalization. In 2003, the City of Southfield and the City of Troy entered into an agreement to form the joint relationship. As a result, the Certified Technology Park designations were established within the cities of Southfield and Troy creating the Automation Alley Smart Zone. The mission of Automation Alley is to grow the innovation cluster of southeast Michigan by providing programs and services to the technology business community that encourage entrepreneurship, increase exporting, attract foreign direct investment, develop high-tech talent, support advanced manufacturing and help technology-driven businesses of all sizes succeed.

More than 350 high-technology, information-technology, and telecommunications firms have a corporate presence in Southfield. An impressive 98 percent of the City is accessible to high-speed fiber optics, broadband and satellite services with several backbones traversing the community. Major telecommunications firms appreciate Southfield's extensive infrastructure, access to a footprint of citywide fiber optics and central location. More than 40 telecommunications firms are represented in Southfield, including 123.net, AT&T, Verizon, Sprint, Comcast, LDMI, Level 3 Communications, and MCI. More than 90 software development companies also have a presence in Southfield, including the industry's largest: IBM, Microsoft, UGS Corp., Sun Microsystems, Cisco Systems, and many others.

Other key high-tech industries represented in Southfield include major electronic media and satellite facilities such as Hughes Network Systems, LLC, national affiliates ABC, CBS, FOX, the CW Television Network, Detroit Fox Sports Network and Infinity Broadcasting, parent company of five metro-area radio stations. Healthcare and life science-based businesses also abound in Southfield, including Blue Care Network, St. John's Providence Hospital, Housey Pharmaceuticals, Lumigen and several others.

Some of the world's leading research and development firms are also based in Southfield, including Lear Corporation (world headquarters), Denso International (North American headquarters), BASF, GE, Honda Research and Development America, Eaton Corporation, Sverdrup Technologies, Autoliv, ThyssenKrupp, and many others.

A contractor for Oakland Community College (OCC) imploded the 17-story North Park Plaza building located off Nine Mile Road approximately 2000 feet north of the Lodge Freeway, just west of Rutland Drive/Southfield Freeway last December. OCC purchased the 42-year-old, 17-story, 340,000 square feet property known as North Park Plaza in early 2014. While there are no immediate plans for the property, the building was blighted and had to be removed to pave the way for future redevelopments efforts.

The City of Southfield saw a wide variety of development and redevelopment projects completed or initiated throughout the City in fiscal year 2014-15. As part of the City of Southfield's ongoing economic development initiatives, the Southfield City Council approved a request from Covisint Corporation for a

Personal Property Tax Exemption under Public Act 328 to facilitate the relocation of its new corporate headquarters to the Travelers Tower II building located at 26533 Evergreen Road. The Council approved their request at the November 24, 2014 City Council Meeting following a public hearing.

The City partnered with Covisint Corporation in the form of personal property abatement to facilitate the relocation of new corporate headquarters from the City of Detroit to Southfield. With the establishment of an Industrial Development District for Travelers Towers I & II and approval of a tax exemption for a period of ten years, Covisint proposes to occupy and improve 50,000 square feet of currently vacant space in the Travelers Tower II. In addition to significant investment in the real property, the proposal also includes the investment of approximately \$5.75 million, with \$4.75 million in information technology, furniture and fixtures, and the balance in leasehold improvements. Covisint will relocate over 250 employees from the City of Detroit to their new Southfield facility and hire an additional 50 new full time employees over the next three years.

The Southfield City Council approved several economic development incentives for Durr Group to facilitate the redevelopment of a new North American headquarters at 26801 Northwestern Highway. The Council approved their request at the November 24, 2014 City Council Meeting following a public hearing. In order to facilitate this request, the City of Southfield is required to establish a Commercial Rehabilitation District pursuant to Public Act 210 of 2005, as amended (P.A. 210). Public Act 210 of 2005 encourages the rehabilitation of commercial property by abating the property taxes generated from new investment for a period of up to 10 years. On November 10, 2014, the Southfield Brownfield Redevelopment Authority (SBRA) recommended approval of the Brownfield Redevelopment Plan & Tax Increment Financing Plan and a Development & Reimbursement Agreement for Durr Group in accordance with the provisions of the Brownfield Redevelopment Financing Act; P.A. 381 of 1996, as amended.

The project will facilitate the redevelopment of the former DTE property into a new corporate headquarters for Durr Group with \$21 million in estimated renovations including the lobby and office space, restrooms and updates to the existing courtyard. A 99,507-square-foot addition will also be constructed south of the existing building footprint that will include a test center, training center and validation center. The anticipated cost associated with the expansion is an additional \$19 million. The relocation of the Durr Group North American headquarters will also bring approximately 485 new jobs to the City of Southfield and will foster future building improvements and expansions along the Northwestern Highway corridor. The company would relocate operations from Plymouth, Auburn Hills and Wixom for consolidation in the new Southfield-based North American headquarters. As part of the agreement, Durr will offer their employees a \$500 incentive to consider relocating to Southfield.

The purpose of the Brownfield Plan and Tax Increment Financing Plan is to provide for the redevelopment of the site and related expenses including the following: Baseline Environmental Site Assessments, Demolition, Asbestos Survey and Abatement, Infrastructure Improvements, Site Preparation, and preparation of a Brownfield Plan. The former DTE property qualifies for assistance as it has been deemed to be "Functionally Obsolete" by a Level 4 Assessor. The total estimated cost of "Eligible Activities" subject to repayment or reimbursement from tax increment revenues is approximately \$4,253,205, with a potential \$637,651 contingency, resulting in an approximate total, not to exceed cost of \$4,890,856. The Brownfield Plan is requesting state support from the Michigan

Strategic Fund (MSF) for eligible non-environmental expenses up to \$4,888,656. In addition to the Eligible Activities, this Plan also includes capture of local available taxes for five years following developer reimbursement for the Local Site Remediation Revolving Fund (LSRRF) totaling approximately \$1,003,429.

Downtown Development Authority

The City of Southfield Downtown Development Authority was established in 1988 to reverse the trend of declining property values and conditions in southeastern Southfield. The DDA is an active member of the City's Business Development Team as well as the Southfield Area Chamber of Commerce. The Southfield Downtown Development Authority consists of a 13-member Board of Directors and is staffed by two full-time employees. The DDA acts as a catalyst in the development and redevelopment of the district. Major stakeholders in the district, such as Providence Hospital, and Oakland Community College offer the potential for growth.

In FY 2014-15, the Southfield DDA continued to move the district forward with new developments, the completion of long-term projects and an emphasis on healthcare, retail and higher education. Two of the biggest challenges the Southfield DDA has been faced with in recent years has been the redevelopment of vacant buildings and unused land. Significant improvements have been made in this area with the demolition of two large buildings that have been empty for a long period of time, including a former Ramada Inn and the former North Park Plaza building, both located off Nine Mile Road near the Lodge Freeway. Both properties were purchased by Oakland Community College, which has a thriving campus within the Southfield DDA. The college is best known for its array of healthcare classes available at that campus. The DDA was the catalyst for the beginning of these efforts.

The Southfield DDA also has been a leading advocate for the completion of several infrastructure projects within its borders, including major road construction efforts such as a complete overhaul of the southbound lanes of Greenfield Road between Eight and Nine Mile Roads and the rebuilding of a new Northland Bus Transit Center. The DDA has also continued to work with the thriving St. John Providence Hospital campus, which has invested more than \$30 million in facility upgrades. Another healthcare initiative the DDA has been involved with is the development of a possible Wellness Center. The DDA and other stakeholders are presently in the first phase of a study to determine the viability of such a center in the district and its potential to accelerate further activity in the area.

Also in the district, St. John's Providence Hospital continues to be a world-class healthcare institution, again ranked as one of the nation's top 15 major teaching hospitals by one of the country's leading sources of health care information and research. The recognition from Thomson Reuters recognizes hospitals that achieve or exceed national benchmark scores for hospital-wide performance. Providence was the only hospital in Michigan to be selected in the Major Teaching Hospital category of Thomson's 100 Top Hospital's list. This is Providence's fourth appearance on the list. Providence was also one of only 23 hospitals in the country to be named a winner of Thomson's Everest Award. The award honors an elite special group of the National award winners. Everest Award winners have reached the highest level of accomplishment on the national Balanced Scorecard and have the fastest rates of long-term improvement.

The City of Southfield purchased the closed Northland Center mall at Eight Mile Road and the Lodge Freeway, located in the City's Downtown Development Authority (DDA), from the court-ordered receiver for \$2.4 million and plans to demolish, remediate, and sell the property to a qualified developer. In addition to the \$2.4 million the City is spending to purchase Northland, Southfield also anticipates spending an additional \$8-\$10 million on the demolition and remediation of the property. There is currently a \$31 million mortgage on the property.

The Mayor, City Council, and City Administration have been very forward thinking in planning for property redevelopment for large land parcels such as this. In addition to taking advantage of available low interest and no interest government loans and/or grants, the two primary sources of funding being utilized are from the following restricted funds:

- The Tax Base Initiative Fund (TBIF)—which can only be used for city redevelopment projects—has set aside \$7.8 million over the past two years.
- The Local Improvement Revolving Fund (LIRF)—which is reserved solely for capital projects—began in 1983 and has \$15.3 million of which \$12.5 million is in liquid assets.

The City of Southfield will not have to increase taxes to purchase, demolish and clean up the property; nor will it have to increase taxes to replenish the funds being spent on the project.

Public Safety

Southfield remains safe and secure as a result of the dedicated, highly trained and well equipped members of the City's award-winning police, fire and emergency management departments. Southfield's public safety personnel are committed to providing residents with the best possible service, protection and prevention through ongoing training for staff and staying current with the needs of the community. Residents have the opportunity to assist in keeping their community safe and secure through Neighborhood Watch and community policing projects. Emergency Management volunteers provide a variety of services during weather-related and other hazardous conditions and by assisting with parking enforcement during community events.

The Southfield Fire Department is comprised of highly trained men and women ready to respond to emergencies from five fire stations strategically located throughout the City. The services provided by the Southfield Fire Department include: fire prevention, fire suppression, basic and advanced life support, high-angle rescue, trench collapse rescue, building collapse rescue, confined space rescue, hazardous materials response, public fire education, and CPR and first aid training. The department is a customer service organization dedicated to preserving the lives and property of Southfield citizens and visitors.

In addition to all Michigan counties, the City of Southfield is one of only approximately 20 cities in the State of Michigan that provides its residents with a dedicated Emergency Management Program (EMP). The Southfield EMP is the lead local governmental agency concerned with planning and preparing Southfield for potential disasters before they occur and to coordinate efforts during actual disaster responses. Southfield EMP also actively maintains a 'Volunteer Program' consisting of up to 40 uniformed, trained and equipped persons available to enhance public safety in the community. The City benefits from a dedicated Emergency Management Operations Command Center complete with "backup" generator power in case of a power outage during a natural or man-made emergency. Additionally,

the Southfield Amateur Radio Service (SARS) is available for emergency communications should conventional channels fail.

Culture and Recreation

The City's Parks & Recreation Department provides numerous recreation programs for both residents and business people of all ages and interests at facilities throughout the City. The Parks and Recreation department continues to offer innovative new programs and community partnerships to provide a wide range of recreation opportunities. Southfield's many parks remain extremely popular throughout the entire year, hosting a wide range of athletic competitions and events such as little league games, adult softball, tennis and sand volleyball leagues and soccer games. More than 8,200 visitors enjoyed the Southfield Sports Arena pool from June through August, while another 27,000 visited the Sports Arena to participate in hockey games and practices, ice skating lessons and general ice skating from September through March. Almost 6,000 rounds of golf were played at Beech Woods Golf Course in addition to more than 22,000 rounds played at Evergreen Hills Golf Course.

The Southfield Public Library continues to serve the community by providing unparalleled services, resources, programs and numerous public meeting spaces. The Southfield Public Library is a state-of-the-art facility that on average receives over 2,100 visitors daily. During these difficult economic times, the Library has grown in importance as a source of information and entertainment for families who increasingly find themselves with often limited resources. The Southfield Public Library's many amenities include two computer labs; a sophisticated computer network with hundreds of data drops and Wi-Fi (Wireless Internet) access; numerous meeting rooms; two auditoriums; 16 group study rooms; three outdoor terraces; fireplaces on each level; and stunning architectural and interior design. The Southfield Public Library also offers several computer classes monthly, ranging from Computer Fundamentals to Microsoft Office software training for people at all levels of computer literacy. Additionally, the Library recently completed the renovation of the youth room, added new early literacy computer stations, and expanded shelving in the picture book collection and young adult areas.

The Southfield Public Library also continues to offer residents innovative programming, including the Genealogy Lock-In which allowed participants uninterrupted access to the library's genealogical resources as well as the assistance of Library staff, and Reading with Kassie — a program that helps children improve their reading skills by reading aloud to Kassie the therapy dog. The Library's annual Battle of the Books programs continue to be very popular, with over 250 students from 12 different schools and numerous coaches participating in 2015. Several other library programs such as the Jazz & Blues series, Poetry, Pages & Scribes and the Local Author Book Fairs also continue to be very popular.

Diverse Community and International City

Southfield remains a model of multiculturalism as the home to large concentrations of African-American, Armenian, Chaldean (Catholic Iraqi), Jewish, Korean, and Russian Orthodox residents. Southfield is one of the most diverse communities in Michigan, and perhaps the Midwest. Its large international business population, including significant numbers of Asian, Middle Eastern, African and European businesses, helps position it as a cosmopolitan center. Japanese businesses are prominent in the community, over 50 in total, including the North American headquarters of Denso International, Toyota Industries, Panasonic Automotive Electronics, Mitsubishi International and Mitsui & Co., among others. Southfield is also the corporate home of Wagon Engineering, an English-based division of Wagon

Automotive; as well as Autoliv Electronics America, a Swedish corporation; and ThyssenKrupp, a German steel conglomerate.

Southfield's many diverse cultures are supported by educational institutions, chambers of commerce, foreign trade offices and others, including Language Center International, American Academy of International Education, Dr. Martin Luther King, Jr. Task Force Committee, Focus on American and Arab Interests & Relations, French American Chamber of Commerce, Michigan Hispanic Chamber of Commerce, Philippine American Community, Korea Trade Center, Japan Business Society of Detroit and Trade Commission of Mexico. Southfield's elected leadership is equally diverse and helps assure Southfield remains a nationally-recognized multicultural model.

An international city bustling with people from a rich array of cultural, ethnic and religious backgrounds, Southfield's most recognizable landmarks include the gold-domed St. John's Armenian Church and the striking Congregation Shaarey Zedek, among the most beautiful examples of religious architecture in Michigan. The distinctive gold and black towers of the Southfield Town Center, Southfield's signature landmark, are home to many of the international firms in the community. Experiencing this multicultural environment makes youth and adults alike more at ease in the global village of the 21st Century, knowledgeable about cultures, customs and traditions worldwide, while promoting harmony and understanding among people of all backgrounds and heritages.

Southfield's modern infrastructure, diverse mix of residential and business cultures, focus on beautification and appearance, and excellent City services have created a statewide model of a successful community that has helped to provide a solid foundation for the City's continued long-term sustainability. Through careful strategic planning, City Council and Administration have adhered to the City's budget plan while developing a road map to ensure the City's long-term financial future. City leaders continue to maintain a constant focus on providing quality city services while doing so with reduced revenues and unprecedented declines in property values, state shared revenues and state road funding (Act 51). Despite these major challenges, the City of Southfield stands ready to serve as a leader in the economic comeback of this region and the State of Michigan.

The information and analysis presented in the following pages reflect the City's commitment to high standards of financial reporting and to Southfield's future vitality. Appreciation is extended to the elected officials, department heads and other employees responsible for contributing to the City's sound financial position. Southfield is blessed with individuals who appreciate and respect principles of fiscal restraint and propriety, enabling the City to successfully address economic challenges. In particular, we acknowledge the special efforts of the fiscal services employees who contributed to the development of this report. The continuing support of Southfield's elected officials, who remain committed to fiscal integrity and financial leadership, is particularly appreciated.

Respectfully submitted,

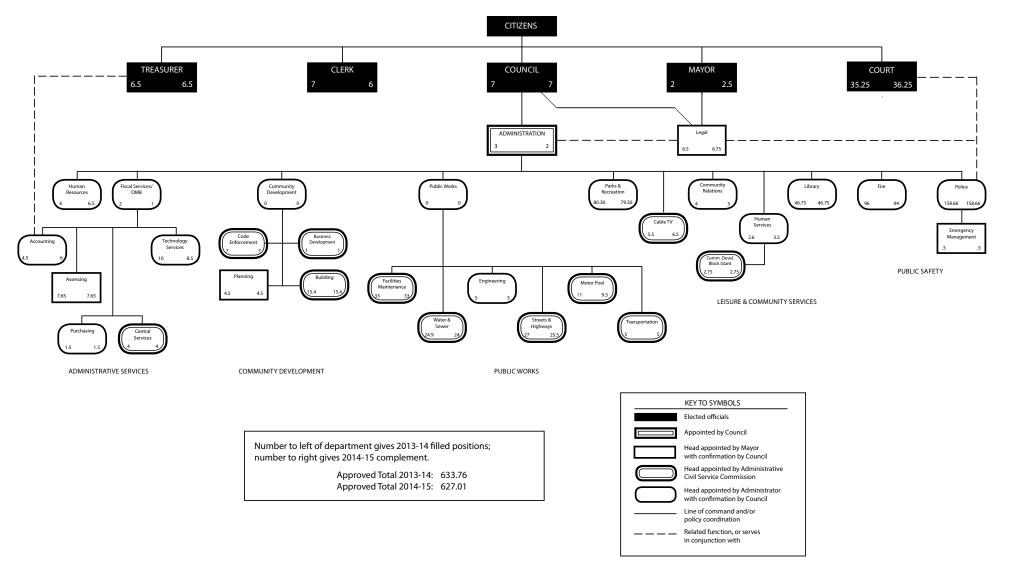

Frederick E. Zorn, Jr., ČEcD

Independent Auditor's Report

To the City Council City of Southfield, MIchigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Southfield, Michigan (the "City"), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Southfield, Michigan's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Southfield, Michigan as of June 30, 2015, and the respective changes in its financial position and, where applicable, cash flows, for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

To the City Council City of Southfield, MIchigan

Emphasis of Matter

As discussed in Note 15 to the basic financial statements, during the year ended June 30, 2015, the City adopted the provisions of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions. As a result of implementing this pronouncement, the City's net pension liability has been recognized on the government-wide and proprietary statements and, as discussed in Note 15, the beginning of year net position has been restated. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the additional required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Southfield, Michigan's basic financial statements. The other supplemental information, as identified in the table of contents, and introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplemental information, as identified in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information, as identified in the table of contents, is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them. The City has included most, but not all, of the information required by GASB Statement No. 44, Economic Condition Reporting: The Statistical Section.

To the City Council City of Southfield, MIchigan

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 22, 2015 on our consideration of the City of Southfield, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Southfield, Michigan's internal control over financial reporting and compliance.

City of Southfield Management's Discussion and Analysis

The following is a discussion and analysis of the City of Southfield's (the City's) financial performance, providing an overview of the activities for the fiscal year ending June 30, 2015. This analysis should be read in conjunction with the transmittal letter, beginning on page 1 of this report, and with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-Wide:

- Net position (excluding component units) decreased by \$1.7 million from \$170.1 million to \$168.4 million.
- Governmental activities net position decreased by \$5.1 million to \$74.9 million.
- Business-type activities net position increased by \$3.4 million to \$93.5.

Fund Level:

- At the close of the fiscal year, the City's governmental funds reported combined ending fund balance of \$101.5 million, with \$4.3 million being non-spendable, \$65.5 million being restricted, \$17.9 million being committed for specific purposes and \$13.8 million being allocated between assigned or unassigned.
- The fiscal year 2015 governmental funds combined ending fund balance reflects an increase of \$49.8 million from the prior fiscal year. This combined increase, however, is made up of an increase in the General Fund ending balance of \$4.6 million and an increase in the Road Bond Construction fund in the amount of \$43.1 million. The rest of the change is spread out amongst the various other governmental funds.
- The increase in the General Fund balance was due to its fiscally responsible stance of not filling vacancies which garnered considerable savings from departments, its conservative revenue projections, especially property tax revenue and an ordinance change which generated an additional revenue stream.

Capital and Long-term Debt Activities:

• The City's statutorily authorized debt limit excluding revenue, emergency and special assessment bonds is \$260.6 million. The City is \$188.5 million below this authorized debt limit.

Management's Discussion and Analysis

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual financial report of the City consists of the following components: 1) An Introductory Section which includes the Transmittal Letter; 2) A Financial Section which includes the Auditor's Report, the Management Discussion and Analysis, the Basic Financial Statements (Government-Wide financial statements, Fund financial statements, Notes to the Financial Statements), Required Supplementary Information such as a budget to actual comparison for the General Fund, additional non-required information including Combining financial statements for all Non-Major Governmental funds and Proprietary funds; and 3) A Statistical Section.

Government-Wide Financial Statements

The set of basic financial statements includes the Statement of Net Position and the Statement of Activities, which report information about the City as a whole, and about its activities. These statements help the reader to determine if the City of Southfield, in its entirety, is better or worse off as a result of this fiscal year's activities. These statements, which include all non-fiduciary assets and liabilities, are reported on the accrual basis of accounting, similar to a private business. This means revenues are accounted for when they are earned and expenses are accounted for when an obligation is incurred; regardless of when the actual cash is received or disbursed.

The Statement of Net Position presents the City's assets and liabilities, recording the difference between the two as "net position". Over time, increases or decreases in net position measure whether the City's financial position is improving or declining.

The Statement of Activities presents information showing the City's net position change during fiscal year 2015. All changes in net position are reported based on the period during which the underlying events giving rise to the change occurred, regardless of the timing of related cash flows. Therefore, revenue and expenses are reported in these statements for some items that will only result in cash flows in future financial periods, such as uncollected taxes and earned but unused employee annual leave.

Both statements report the following activities:

Governmental Activities - Taxes, charges for services, and intergovernmental revenue primarily fund these services. Most of the City's departments and operations are reported under these activities.

Business-Type Activities - These activities operate like private-sector businesses. The City's Water and sewer fund charges fees to recover the cost of the services provided.

Management's Discussion and Analysis

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

Discretely Presented Component Units - Component units are legally separate organizations for which the City Council appoints a majority of the organization's policy board and there is a degree of financial accountability to the City. Eight discretely presented component units are included: the Local development finance authority, the Tax increment finance authority, the Economic development corporation, the Downtown development authority, the Brownfield redevelopment authority, Joint-local development finance authority, Section 8 housing commission and the Southfield growth corporation.

As stated previously, the government-wide statements report on an accrual basis of accounting. However, the governmental funds report on a modified accrual basis. Under modified accrual accounting, revenues are recognized when they are available to pay obligations of the fiscal period, expenditures are recognized when they are due.

Because of the different basis of accounting between the fund statements (described below) and the government-wide statements the City presents reconciliations between the two statement types. The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

Capital assets used in government activities and depreciation expense are not reported on the government fund financial statements, however depreciation expense is reported on the government-wide statements. Capital outlay spending results as capital assets on the government-wide statements and are reported as expenditures on the government fund financial statements.

Internal service funds are reported as governmental activities on the government-wide statements, but are reported as proprietary funds on the fund financial statements.

Long-term contingencies, such as reserves for sick and annual leave (compensated absences, etc.), appear as liabilities on the government-wide statements; however they will not appear on the fund statements unless current resources are used to pay a specific obligation. Bond and loan proceeds are reported as liabilities on the government-wide statements, but are recorded as other financing sources on the governmental fund financial statements.

In addition, it should be noted that the government-wide financial statements include the net value of the City's assets such as land, buildings and furniture and fixtures. These values are not included in the fund financial statements.

Fund Financial Statements

The fund financial statements provide information on the City's significant funds - as a whole. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

Management's Discussion and Analysis

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

A fund is a fiscal and accounting entity with a self-balancing set of accounts that is used to keep track of specific sources of funding and spending for a particular purpose. Funds are also utilized to track specific operations; these include the internal services funds (e.g., Motor pool, Equipment revolving, etc.) as well as the Water and sewer enterprise fund.

The basic financial statements only report major funds separately as defined by the Government Accounting Standards Board (GASB). All other funds are classified as non-major funds. Detailed information on non-major funds can be found in other sections of this report.

The City's funds are divided into three categories - governmental, proprietary, and fiduciary - and use different accounting approaches:

Governmental Funds — Basic services are reported in the governmental funds. The focus of these funds is how cash and other financial assets that can be readily converted to cash, flow in and out during the course of the fiscal year, and how the balances left at year-end are available for spending on future services. Consequently, the Governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that may be expended in the near future to finance programs. These funds are reported using the modified accrual basis of accounting as described above. Because this basis of accounting differs from the government-wide statements, additional information is provided reconciling the government fund statements to the government-wide statements. Governmental funds include the General Fund, as well as Special revenue funds, Capital projects funds and Debt service funds.

Proprietary Funds – Funds with a focus on operating income and cost recovery are reported in proprietary funds. Proprietary funds use the accrual basis of accounting used in the government-wide statements and by private business. There are two types of proprietary funds. Enterprise funds report activities that provide supplies and services to the general public. The Water and sewer fund is the City's only enterprise fund. Internal service funds report activities that provide supplies and service to the City's other operations. Internal service funds, such as the Motor pool fund, are reported as governmental activities on the government-wide statements.

Fiduciary Funds – The City acts as a trustee or fiduciary for its employee pension plans. It is also responsible for other assets that, because of trust arrangements, can only be used for the trust beneficiaries. The City's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension, other postemployment benefits and agency, are reported using the accrual basis of accounting. The government-wide statements exclude the fiduciary fund activities and balances because these assets are not available to fund current operations.

Management's Discussion and Analysis

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

Notes to the Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the detail provided in the government-wide and fund financial statements.

Required Supplementary Information

Following the basic financial statements is additional Required Supplementary Information (RSI) which further explains and supports the information in the financial statements. RSI includes a budgetary comparison schedule for the General Fund, the major and non-major governmental funds as well as pension trend data.

Other Supplementary Information

Other supplementary information includes combining financial statements for non-major governmental, proprietary, and fiduciary funds. These funds are added together, by fund type, and are presented in single columns in the basic financial statements, but are not reported individually, as are the major funds, on the government-wide statements.

FINANCIAL ANALYSIS

As previously stated, the City's combined net position decreased by \$1.7 million over the course of this fiscal year's operations. The position of the governmental activities decreased in the amount of \$5.1 million; the net position of the business-type activities increased by \$3.4 million. During fiscal year 2015, the City implemented GASB 68. Prior year balances have not been restated for the changes. See footnote 16.

The following is a condensed Statement of Net Position for the period ending June 30, 2015:

Net Position June 30, 2015 (in millions of dollars)

During fiscal year 2015, the City implemented GASB 68. Prior year balances have not been restated for the changes. See footnote 16.

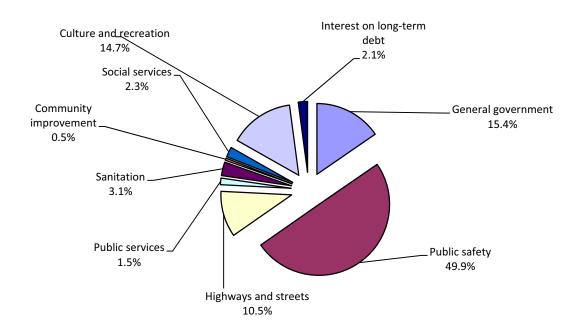

Management's Discussion and Analysis

FINANCIAL ANALYSIS (continued)

The result of 2015 fiscal year's governmental activity was a decrease of \$5.1 million and an ending net position balance of \$74.9 million. Of this total, \$44.7 million is the net investment in capital assets, \$70.0 million is reported as restricted, meaning these assets are legally committed for a specific purpose through statute or by another authority outside the government. The balance of (\$39.8) million is listed as unrestricted, having no legal commitment.

The following chart depicts expenses of the governmental activities for the fiscal year:

GOVERNMENTAL EXPENSES

Governmental activity expenses for the fiscal year decreased by \$2.4 million. Public safety is the largest governmental activity, expending \$50.9 million of the governmental activities total expenses of \$102.0 million. It comprises 49.9% of total governmental expenses. This category increased marginally by \$1.0 million. General government is the second largest governmental activity with a total expense of \$15.7 million, expending 15.4% of total governmental expenses. This activity decreased by \$3.5 million. Cultural and recreation is the third largest governmental activity with total expenses of \$15.0 million, expending 14.7% of total governmental expenses. This activity decreased by \$.4 million. These three categories comprised 80.0% of total governmental activity expenses.

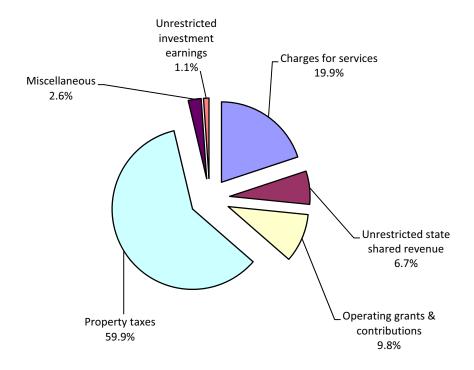

Management's Discussion and Analysis

FINANCIAL ANALYSIS (continued)

The following chart depicts revenues of the governmental activities for the fiscal year:

In total, governmental revenue had a net increase in fiscal year 2015 by \$.3 million. Property tax revenue is the largest source of support for the governmental activities. The City's millage rate is 24.2314 mills. Property tax revenue generated \$58.0 million in 2015. It represented 59.9% of all available sources of revenue. Charges for services comprise the second largest source of governmental activity revenue at \$19.3 million. It represented 19.9% of all available sources of revenue for governmental activities. This source increased by \$1.5 million. Unrestricted state shared revenues, which are constitutionally and statutorily provided by the State of Michigan, represented 6.7% of all available sources of revenue and increased \$.1 million. The Grants and contributions figure represents 9.8% of all available sources of revenue and decreased \$1.6 million. Over 96.3% of the governmental activities are supported by these four revenue sources.

GOVERNMENTAL REVENUES

Management's Discussion and Analysis

FINANCIAL ANALYSIS (continued)

Business-Type Activities:

The net position for business-type activities increased by \$3.4 million during fiscal year 2015. Overall charges for services increased marginally from 2014 by \$1.2 million. Operating expenses increased by \$.2 million.

Of the total \$93.5 million of net position in the business type activities, \$31.9 million is reported as unrestricted.

FINANCIAL ANALYSIS OF THE CITY'S MAJOR FUNDS

General Fund

The General Fund is the central operating fund of the City of Southfield. Unless otherwise required by statute, contractual agreement or policy, all revenues and expenditures are recorded in the General Fund. As of June 30, 2015 the General Fund reported a fund balance of \$25.8 million. This amount is an increase of \$4.6 million from the prior June 30. Of the total fund balance, \$4.2 million is non-spendable, \$.3 million is restricted, \$13.5 million is committed and \$7.8 being allocated between assigned or unassigned.

General Fund Budgetary Highlights:

The General Fund revenue budget was increased by \$1.1 million to recognize new revenues due to an ordinance change, with a final budget amount of \$66.2 million. General Fund revenue totaled \$67.1 million. Property tax revenues exceeded budget projections by \$.7 million due to cautious estimates. Intergovernmental state revenues were less than budgeted by \$.1. Net investment earnings exceeded budget projections by \$.4 million.

The General Fund expenditure budget was increased for several purposes during fiscal year 2015 including encumbrances of \$.1 million, contribution to fund balance of \$1.1 million to recognize the new revenues above, and \$3.1 to purchase land held for resale to a final budget of \$69.1 million. Actual expenditures for fiscal year 2015 were \$61.3 million which was \$7.7 million under budget.

Additionally, the City Council approved a \$1.0 million transfer to the Major street fund for the reconstruction of Evergreen Road.

In summary, the fiscal year 2015 final amended budget anticipated using \$.5 million of prior year's fund balance. The actual net change in fund balance was an increase of \$4.6 million; greatly outperforming original projections.

Management's Discussion and Analysis

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – At the end of fiscal year 2015, the City of Southfield had invested \$205.9 million, net of accumulated depreciation, in a broad range of capital assets. This reflects an increase of \$8.6 million from 2014. Refer to Note 6 for additional capital asset information.

Long Term Debt – At the end of fiscal year 2015, the City of Southfield had \$99.6 million in bonds outstanding. The amount of bonds with limited taxing authority in 2014 is \$24.8 million. A more detailed depiction of the City's long-term debt obligations is presented in Note 7 to the financial statements.

Bond Ratings – The City's unlimited and limited tax general obligation bond rating from Standard and Poor's is AA. Moody's Investors Services rating for the City's unlimited tax general obligation bonds is Aa2, and its limited tax general obligation bond rating is Aa3.

ECONOMIC OUTLOOK

The United States, State of Michigan and the City of Southfield economies continue to recover from the 2008-2009 recession, generally regarded as the most severe economic contraction in more than 70 years. Property taxable values remain well below their prerecession peaks and could likely take almost twenty years or more to recover, impacting the growth of property tax revenue. Property taxes are the primary source of unrestricted revenue for the City. While property values in the City have been trending upward, property tax growth is limited to the rate of inflation or 5% as a result of the Headlee Amendment and Proposal A.

Unemployment in the City of Southfield remains higher than the state and county level. As of September 2015, unemployment in the City was 6.6%, compared to 10.2% at September 2014. Unemployment in the State of Michigan was 4.7% and 6.6% at September 2015 and 2014. The economic development strategy in the City includes strategies to address unemployment of its residents.

There has been improvement in the economic outlook that should positively impact the City's fiscal stability. Overall, the City's current and most recent budgets emphasize cost containment and, when feasible, maintenance of existing service levels. Since the economic recovery has been at a slow pace, the City will continue to be conservative in its fiscal and spending policies. The goal is to ensure expenditures stay in line with anticipated revenue sources.

City of Southfield Management's Discussion and Analysis

ECONOMIC OUTLOOK (continued)

General Fund Budgetary Highlights

Property taxable values are expected to increase at the rate of inflation, as determined by the consumer price index, which is projected to be 0.3% for fiscal year 2016-2017 and a forecast of 1.9% for fiscal year 2017-2018. The 2015 approved tax millage rate for fiscal year 2015-2016 is 26.7585 mills. Southfield voters approved a charter amendment in 2015 to levy 2.58 mills for street and highway improvements beginning with the 2015 levy. The City is levying the maximum millage levels allowable by charter. Property taxes account for 65% of revenue in the General Fund.

The second major source of unrestricted revenue for the City is state revenue sharing, which accounts for 9.7% of unrestricted general fund revenue. It is anticipated that the State will not significantly increase state-shared revenue in the next few fiscal years 2016-17. There was a 2.7% increase from fiscal year 2014-2015 to fiscal year 2015-2016, and a projected 1.0% increase in fiscal year 2016-2017.

The City projects balanced operations for the 2015-2016 fiscal year and will continue to manage resources that are available for operations and improvements. The total General Fund budget for fiscal year 2015-2016 totals \$67.4 million, which represents a less than one percent increase from fiscal year 2014-2015. Some of the items considered in the adopted budget include:

- Projected property taxable values increased by 4.5% from fiscal year 2014-2015 to 2015-2016.
- General Fund expenditures are budgeted at \$66.2 million, with Public Safety totaling \$39.3 million or 59.3% of proposed expenditures.
- Status quo budgeting for most funds after adjusting for changes to healthcare and pension costs, with the exception of planned improvements to facilities and infrastructure, including streets and highway improvements.

CONTACTING THE CITY'S FISCAL SERVICES DIVISION

This financial report is designed to provide our residential and corporate taxpayers, investors, creditors, and any other interested parties with a general overview of the City's accountability for the financial resources under its purview and to demonstrate the City's commitment to proper standards of financial reporting. It there are questions about this report, or further information is needed, please contact James B. Pierce, City Controller, at (248) 796-5212.

Reconciliation of the Balance Sheet -Governmental Funds to the Government-Wide Statement of Net Position June 30, 2015

Fund balance for governmental activities	\$	101,502,053
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and	١,	
therefore, are not reported in the funds.		124,346,405
Other long-term assets are not available to pay for current-		
period expenditures and, therefore, are deferred in the funds		582,986
Deferred outflows from the difference between projected and actual investment earnings of the pension plan and changes		
in actuarial assumptions		14,676,280
Accrued interest payable on governmental debt		(535,103)
is recorded in the statement of activities		
Deferred charges on bond refunding are amortized over the related bond		
terms, and are not reported in the funds		789,999
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:		
Bonds payable		(86,246,604)
Compensated absences		(6,987,865)
Michigan tax tribunal liability		(778,202)
Other post-employment benefits (OPEB)		(47,226,645)
Deferred inflows from the difference between expected and actual experience of the total pension plan		(673,738)
Net pension liabilities are not due and payable in the current period and are not reported in the funds		(61,808,981)
Internal service funds are used by management		
to charge the costs of maintaining facilities		
equipment and fleet management to individual		
funds. The assets and liabilities of the internal		
service funds are included in governmental		
activities in the statement of net position.	_	37,248,023
Government-wide net position of governmental activities	\$_	74,888,608

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Government-Wide Statement of Activities
For the Year Ended June 30, 2015

Net change in fund balances – total governmental funds	\$	49,794,101
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures; in the statement of activities, these costs are recorded as capital assets		8,582,952
Governmental activities allocate the cost of capital assets over their estimated useful lives as depreciation expense.		(8,049,428)
Delinquent personal property taxes are recorded in the statement of activities when the tax is assessed; they are not reported in the funds until collected or collectable within 60 days of year end and revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fundamental fundamental resources.	nds	(307,282)
Change in accrued interest payable on long-term debt		(208,269)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The amount of expenditures for accumulated compensated absences is reported here.		881,157
Change in Michigan tax tribunal contingency		112,115
Repayment of bond principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities in the statement of net position. Long-term debt for capital assets is a reduction of net position however, a reduction of the debt increases net position. This is the amount of principal paid on long-term debt.		2,944,647
Proceeds from long-term debt net of discounts and premiums		(48,844,032)
Current year's amortization for discounts payable.		(6,373)
The change of the deferred charges on bond refunding balance is recorded in the		(0,373)
statement of activities		789,999
Change in other post-employment benefits (OPEB)		(9,036,363)
The change in net pension liability and deferred inflows and outflows related to pension amounts does not require the use of current resources and is not reported in the governmental funds		(1,701,828)
Internal Service funds are used by management to charge the costs of certain activities, such as motor pool, and equipment replacement, to individual funds. The net activity of the internal service funds is reported with governmental		(100.311)
activities.	=	(106,211)
Change in net position government-wide statement of governmental activities	\$	(5,154,815)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Southfield, Michigan (the "City") was incorporated on April 28, 1958 under the provisions of Act 279, P.A. 1909, as amended (Home Rule City Act). The City operates under a council/administrator form of government and provides the following services as authorized by its charter: public safety, public works, culture, recreation and community development and general administrative services. The component units discussed below are included in the City's financial reporting entity because of the significance of their operational or financial relationships with the City. In accordance with generally accepted accounting principles, these financial statements present the City (the primary government) and its component units. The criteria established by the Governmental Accounting Standards Board (GASB) for determining the reporting entity includes financial accountability and whether the financial statements would be misleading if data were not included.

Component Units

The financial statements of component units have been included in the financial reporting entity either as blended component units or discretely presented component units. The primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Data from these units is segregated from the primary government in the combined financial statements. Each blended and discretely presented component unit's financial information has been included based upon a June 30 year-end.

Blended Component Units – Blended component units are legally separate entities from the City, but provide exclusive benefit to the primary government, so data from these units are combined with the data of the City (primary government) and presented as governmental fund types.

The City of Southfield Building Authority board consists of 4 members appointed by City Council and the City Administrator, thereby appointing a voting majority. Although it is legally separate from the City, the Authority is reported as if it were part of the primary government because its sole purpose is to issue bonds to finance major capital construction by the City.

The City of Southfield Library Building Authority board consists of 6 members appointed by City Council, thereby appointing a voting majority. In addition, the repayment of the City of Southfield Library Building Authority's bonds is financed through an operating millage for library operations.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- A. Reporting Entity (continued)

Discretely Presented Component Units – Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable or their relations with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. These component units are reported in a separate column to emphasize that they are legally separate from the City. The following component units are included in the reporting entity because the primary government is financially accountable and is able to impose its will on the organization:

<u>Economic Development Corporation (EDC)</u>: The EDC was formed in February of 1980, in accordance with the State of Michigan Public Act 338 of 1974, for the purpose of stimulating economic activity in the City of Southfield. Industrial projects ultimately approved by the Economic Development Corporation are financed through the sale of Industrial Revenue bonds. In addition, the EDC offers loans and participates in other economic development and rehabilitation programs.

<u>Brownfield Re-development Authority:</u> The Brownfield Redevelopment Authority is a corporate public body created by the State of Michigan under Public Act 381 of 1996, consisting of the serving members of the Local Development Financing Authority (LDFA). Its purpose is to promote the revitalization of environmentally distressed, blighted and functionally obsolete properties through the use of tax increment financing.

Joint-Local Development Finance Authority (Joint-LDFA):

The Joint-LDFA was created under Public Act 248 of 2000, an amendment to the Local Development Finance Authority Act created under Michigan Public Act 281 of 1986. The Joint-LDFA is a joint authority with the City of Troy in which each city prepared its own development and financing plan by creating a Certified Technology Park, also known as a SmartZone or Smart Park, whose primary purpose is to develop and finance public improvements to promote growth and economic development. This purpose is accomplished by the Authority designing a development district and analyzing the property to determine the initial assessed value. Any new or additional assessed value is declared "captured assessed value." Most local and ½ of school property taxes collected thereon are transferred to the Authority as "tax increment revenues" and used to finance the development plan.

<u>Downtown Development Authority (DDA):</u> The DDA has a 13-member board, all appointed by the Mayor, committed to the economic development of the designated downtown district in and around the Northland Center. This Authority was formed under Public Act 1975, No. 197 and is funded through a 2-mill tax levy on all real and personal property within the district and a tax increment financing plan.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- A. Reporting Entity (continued)

<u>Tax Increment Financing Authority (TIFA):</u> The TIFA was organized pursuant to the State of Michigan Public Act 450 of 1980. Its primary purpose is to finance and develop public improvements to promote growth and increase property tax valuation. Any new or additional assessed value in the development district is declared "captured assessed value." The property taxes collected thereon are transferred to the TIFA as "tax increment revenues" and used to finance the development plan.

Local Development Finance Authority (LDFA): The LDFA was organized on September 25, 1989 pursuant to the State of Michigan Public Act 281 of 1986. The LDFA is similar to the TIFA, but is restricted to industrial and manufacturing areas. The primary purpose of the LDFA is to finance and develop public improvements to promote growth and increase property tax valuation. This purpose is accomplished by the Authority designing a development district and analyzing the property to determine the initial assessed value. Any new or additional assessed value, whether from new construction or increased market value, is declared "captured assessed value." The property taxes collected thereon are transferred to the LDFA as "tax increment revenues" and used to finance the development plan.

The City assesses, collects and distributes property taxes for several school districts, including the Southfield Public Schools. These districts are not included in these financial statements because they are entities with independently elected Boards of Education who establish their own millage rates and are responsible for all financial control, including budgeting and operating surpluses and deficits.

Section 8 Housing Commission:

The Southfield Housing Commission, whose activities are reported in the Section 8 Housing Fund, was incorporated pursuant to the Housing Facilities Act 19 of 1933. The Southfield Housing Commission consists of five (5) members appointed by the City Administrator for five-year terms. The Southfield Housing Commission is responsible for providing quality housing for the elderly and low-income families through the Housing and Urban Development's Housing Choice Voucher Program Section 8, public funding program.

Southfield Growth Corporation:

The Southfield Growth Corporation, whose activities are recorded in the Neighborhood Stabilization Program (NSP), is governed by a 5 member board including the Deputy City Administrator, City Attorney, Purchasing Agent, Director of Planning and Housing Program Specialist. The first three members are appointed by the City Council, the Director of Planning is appointed by the Mayor and confirmed by the City Council and the Housing Program Specialist reports to the Deputy City Administrator, thereby appointing a voting majority. Pursuant to the Housing Economic Relief Act (HERA) of 2008, federal grant funds are used to allow the City to purchase foreclosed or abandoned homes to rehabilitate, resell, or redevelop in order to stabilize neighborhoods and stem the decline of house values of neighboring homes. The NSP also provides financial assistance to qualifying families for acquisition of foreclosed and vacant properties.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period or within one year for reimbursement-based grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available. Revenues are generally considered available when they are received in cash (unless legally restricted to some future period) or when earned and expected to be collected within 60 days after year end to pay liabilities of the current period. Significant revenues susceptible to accrual include reimbursement grants, state shared revenues and charges for services.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred provided the liability normally would be liquidated with expendable available financial resources. The major exception to this general rule is principal and interest on long-term debt which is recognized when due and paid.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

All governmental funds are accounted for on a spending or "current financial resources" measurement focus. This means that generally only current assets and current liabilities are included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available, spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

All proprietary funds and the pension trust funds are accounted for on a cost of services or "economic resources" measurement focus. This means that all assets and all liabilities (whether current or non- current) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets. Proprietary and Pension Trust funds use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

The statement of net position and the statement of activities display information about the City as a whole. The statements include all funds of the primary government and its component units, except for its fiduciary funds. Those funds are reported in the statements of fiduciary net position and changes in fiduciary net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The City's net position is reported in the following three categories: net investment in capital assets, restricted net position and unrestricted net position.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City's net position is reported in the following three categories:

- Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.
- Restricted net position results when constraints are placed on the use of net position by either creditors, grantors, contributors and the like, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position consists of net position which does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources, which are imposed by management, but can be removed or modified.

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., legislative/constitutional provisions or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider unrestricted net position to have been depleted before restricted net position is applied.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The major governmental funds and major enterprise fund are reported as separate columns in the fund financial statements.

The statement of net position and the statement of activities are presented to distinguish between governmental and business-type activities of the City. Governmental activities are financed through taxes, intergovernmental revenues and other non-exchange revenues. These activities are reported in governmental and internal service funds. For the most part, the effect of interfund activity has been removed from these statements. Business-type activities are financed by fees charged to external parties for goods or services. These activities are reported in the City's enterprise fund.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Governmental funds

Governmental funds include all activities that provide general governmental services that are not business-type activities. The City reports the following major governmental funds:

- The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- The Road Bond Construction Fund is used to account for proceeds used for construction of City roads.

Proprietary funds

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues relates to charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. These include enterprise funds and internal service funds.

The enterprise fund is used to account for (1) operations that are financed and operated in a manner similar to business enterprises where the costs (including depreciation) of providing goods or services to the general public on a continuing basis are to be financed or recovered primarily through user charges, and (2) operations where the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The City reports the following major proprietary fund:

 The Water and Sewer fund accounts for the purchase of water from the Southeastern Oakland County Water Authority and the installation and maintenance of meters and mains throughout the City. Sewer disposal charges to customers pay for treatment of sewerage and fund installation and maintenance of sanitary sewers in the Evergreen area (west of Southfield Road) and of combined sanitary and storm sewers on the "SEOCSDS" area (east of Southfield Road).

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost reimbursement basis. These funds include Facilities Maintenance, Motor Pool, Equipment Revolving, Insurance Risk Retention and Local Improvement Revolving.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Additionally, the City reports the following fund types:

- Special revenue funds are used to account for the proceeds of specific revenue sources used to finance projects or activities as required by law or contractual agreement. These funds include Major Streets, Local Streets, Parks & Recreation, Cable, Block Grant, Drug Law Enforcement, Grants, Library, Michigan Works, Auto Theft and Donations, Memorial Trusts & Sponsorships.
- Debt service funds are used to account for the accumulation of resources and the payment of loan principal and interest from governmental resources. The City's debt service fund accounts for the payment of interest and principal on long-term bonded debt for Drains-at-Large. The City has contracted with Oakland County for indirect repayment of bonds issued for sewers and drains.
- Capital projects funds account for resources used for the acquisition or major renovation of capital facilities. Disbursements from these funds are primarily for property acquisition and the construction of permanent public improvements. The major financing sources are bond proceeds, transfers from other City funds, internal loans and grants. These funds include the City of Southfield Library Building Authority Construction, Capital Improvement, City of Southfield Building Authority Construction and Special Assessment Construction.
- Fiduciary funds include Pension Trust funds or Trust and Agency funds used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Trust funds include Pension Trusts and Retiree Health Care Benefits Plan and Trust. Agency funds include Deposits and Escrow, Imprest payroll and 46th District Court. Expendable Trust and Agency funds are accounted for and reported as governmental funds.

There are no major component units.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance
- (a) Deposits and Investments: The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value, based on quoted market prices. Investments and certificates of deposit are purchased with pooled cash and are generally held to maturity. Interest is allocated on the basis of time-and-dollar weighted participation in each pool.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance (continued)
- **(b)** Receivables and Payables: During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. Short-term receivables and payables resulting from such transactions are classified as "Due from other funds" or "Due to other funds" on the balance sheet. Any residual balances between the government activities and business-type activities are reported in the government-wide financial statements as "internal balances". All trade and property tax receivables are shown as net of allowance for uncollectible amounts.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's Water and Sewer fund. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Non-current portions of long-term interfund loan receivables are reported as advances and are offset equally by a reservation of fund balance.

- (c) Inventory and Prepaid Items: Inventory is stated at a first-in, first-out cost method and are accounted for using the purchasing method except for certain items used in the governmental and proprietary funds such as sign shop inventory which are accounted for on the consumption method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.
- **(d) Restricted assets:** Restricted assets consist of deposits being held by third parties and are legally required to be used for specific purposes, including construction and maintenance of drains, debt service of drains, and for self-insurance claim payments.
- (e) Capital Assets: Capital assets which include property and equipment are stated at historical cost or, if donated, fair market value at the date of donation. Expenditures which materially extend the useful life of existing properties are capitalized. All costs relating to the construction of facilities are capitalized, including salaries, employee benefits and bond interest costs. Certain governmental improvements, including roads, bridges, storm sewers and sidewalks are capitalized as infrastructure. Drain usage rights are capitalized assets relating to City drains that are maintained by Oakland County.

Depreciation is recorded for property and equipment using the straight-line method over the estimated useful lives of the related assets. Assets are depreciated on an individual basis for equipment and buildings.

The estimated useful lives are:

Land improvements 10-50 years
Buildings and improvements 10-50 years
Infrastructure 5-50 years

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance

(e) Capital Assets: (continued)

Intangibles10-50 yearsDrain usage rights50 yearsEquipment2-20 years

Depreciation of property and equipment contributed by entities independent of the City (such as construction contractors) is charged to fund operations.

Capital assets are reported in the government-wide statements at historical cost. Capital assets include land, improvements to land, buildings, building improvements, vehicles, machinery, equipment and all other tangible or intangible assets that are used in operations and have initial useful lives beyond a single reporting period and cost over \$5,000. Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of years than most capital assets.

Capital assets that are being depreciated are reported net of accumulated depreciation in the statement of net position. Capital assets that are not being depreciated, such as land, are reported separately.

Capital assets are depreciated over their estimated useful lives. Depreciation expense is reported in the statement of activities by allocating the net cost over the estimated useful life of the asset.

- **(f) Interfund balances:** Outstanding balances between funds are reported as "due to/due from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.
- (g) Deferred outflows/inflows of resources: In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflow of resources related to unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from: special assessments, grants, and other miscellaneous sources. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The government also has property taxes recorded as a receivable which are unavailable for current operations. Those property taxes will be recognized as revenue next year, in the year they become available. The deferred inflows of resources related to the differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability are reported in the government-wide statement of net position and proprietary statement of net position. These amounts are deferred and amortized over the expected remaining service lives of all active and inactive employees who are provided with pensions.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance

(g) Deferred outflows/inflows of resources: (continued)

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. One of the deferred outflows is the deferred charge on a bond refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item reported as deferred outflows in the government-wide statement of net position and proprietary statement of net position is the difference between projected and actual earnings on pension plan investments. This amount is deferred and amortized over five years.

- (h) Compensated absences: The City recognizes expenditures and liabilities in governmental funds for the accrued vacation and sick pay as it comes due for payment (when the time is taken off or an employee terminates). The remaining amount of the unpaid vacation and sick pay liability has been recognized in the statement of net position as non-current liabilities. The proprietary funds accrue all unpaid vacation and sick pay as it is earned and has been accrued therein in its entirety.
- (i) Long-term debt and other obligations: In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures. The general fund and debt service funds are generally used to liquidate governmental long-term debt.

(j) Pension and other post-employment benefit (OPEB) costs:

<u>Pension</u> - The City offers pension benefits to retirees. The City records a net pension liability for the difference between the total pension liability calculated by the actuary and the pension plan's fiduciary net position. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plan and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the pension plan.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance

(j) Pension and other post-employment benefit (OPEB) costs: (continued)

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other post-employment benefit costs - The City offers retiree healthcare benefits to retirees. The City receives an actuarial valuation to compute the annual required contribution (ARC) necessary to fund the obligation over the remaining amortization period. In the governmental funds, OPEB costs are recognized as contributions are made. For the government-wide statements and proprietary funds, the City reports the full accrual cost equal to the current year required contribution, adjusted for interest and "adjustment to the ARC" on the beginning of year underpaid amount, if any.

- **(k) Fund Balances:** In the fund financial statements, governmental funds report the following components of fund balance:
 - Nonspendable Amounts that are not in spendable form or are legally or contractually required to be maintained intact.
 - Restricted Amounts that have externally imposed constraints and are legally restricted by outside parties, constitutional provisions or enabling legislation for use of a specific purpose.
 - Committed Amounts that have been committed for specific purposes by formal action of a
 government's highest level of decision-making authority (i.e. City Council). The City Council is
 the highest level of decision-making authority for the government that can, by adoption of a
 resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the
 limitation imposed by the resolution remains in place until a similar action is taken (the
 adoption of another resolution) to remove or revise the limitation.
 - Assigned Amounts that are intended by the government to be used for specific purposes, but are not restricted or committed.
 - Unassigned Residual amounts remaining in the General Fund and negative amounts in other governmental funds.

In addition, special revenue funds are only allowed to be reported if they are used to account for activities that are substantially funded by a specific external revenue source that is restricted or committed for a specific purpose.

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance

(k) Fund Balances: (continued)

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider unrestricted fund balance to have been depleted before using any of the components of restricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The City Council has not formally adopted a fund balance policy. However, the general rule is to follow the GFOA guidelines by maintaining a balance between 5 - 20% of annual expenditures.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The City Council may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

- (I) Use of estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.
- (m) Reclassifications Certain amounts presented in the prior year data in the Management's Discussion and Analysis have been reclassified in order to be consistent with the current year's presentation.
- (n) Cash Flows The City presents Statements of Cash Flows for all proprietary fund types. These statements, which have been prepared utilizing the direct method, analyze the net increase or decrease in cash and cash equivalents by source. For the purposes of the Statement of Cash Flows, the City considers cash equivalents to be all highly liquid investments with a maturity of three months or less from the date of acquisition.

Notes to the Financial Statements

- 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
- C. Assets, Liabilities, Deferred Outflows, Inflows of Resources and Fund Balance (continued)
- **(o) Encumbrances** Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting (under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the application appropriation) is utilized in the governmental funds. The encumbrances do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.
- **(p)** Change in Accounting Principles During the current year, the City adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions, which requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability and to measure the annual costs of pension benefits. The impact of this accounting change is disclosed in footnote 16, Reporting Change Restatement of Beginning of Year Net Position.

2. COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data

The preparation of the budget begins in October with the establishment of written goals and parameters through the City Administrator's Office and the distribution of budget instructions by the Office of Management and Budget. The remaining steps and deadlines are strictly outlined in the City Charter:

- On or before March 1 Each department head must submit a departmental budget to the City Administrator.
- On or before April 1- the Administrator shall submit the budget to the Mayor.
- On or before the first regular Council meeting in May the Mayor shall submit the budget to
- Not later than the third week in June the Council shall adopt a budget by an affirmative vote of at least five members, at a Special Budget Meeting called for such purposes.
- The City's fiscal year begins July 1.
- The public is kept well informed throughout the budget process through the issuance of press
 releases, availability of budget documents at both the City Clerk's Office and Southfield Public
 Library at various stages in the formulation process, and creation of a budget summary videotape
 which plays periodically on the City's cable television station. Citizens are encouraged to actively
 participate in all public hearings.
- The individual department head is authorized to transfer budgeted amounts within the respective appropriation unit (e.g., Treasurer's Office), unless the transfer involves personnel or capital line items, in which case, the approval of the Director of Financial Services or the City Administrator is also required. However, any revisions that alter an appropriation unit's total budget must be approved by City Council. Such budget adjustments took place, as authorized by the City Council, for the year ended June 30, 2015, and the budgetary data reflects the effect of those amendments.

2. COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data (continued)

- Appropriations for the fiscal year lapse every June 30. Council may re-appropriate any amount at its discretion.
- Budgets are legally adopted on an activity basis for the General and Special Revenue Funds. These
 budgets are presented on the same basis of accounting as used for actual results. They are
 adopted by Council on a non-GAAP basis. A schedule reconciling the adopted budget to the
 presented budget is disclosed in the RSI section. Capital Projects and Debt Service funds are
 approved by City Council on a project length basis, with annual expenditures included within
 Governmental Fund appropriation units. Budgets and actual comparisons are not reported in the
 financial statements for those funds where no annual budgets are prepared.

Notes to RSI – Budgetary Information

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as restrictions, commitments or assignments of fund balances (depending on how the encumbrances will be paid) and do not constitute expenditures or liabilities because the goods or services have not been received at year end. The commitments will be re-appropriated and honored during the subsequent year. The amount of encumbrances outstanding at year end is \$4,109,267.

The following non-major governmental funds require an annual budget:

Major streets Drug law enforcement

Local streets Grants
Parks and recreation Library

Cable television Michigan works grants
Block grant Auto theft grant

Donations, memorial trusts & sponsorships

The Block grant fund adopted an annual budget which included a deficit. This fund was not in compliance with the Uniform Budget Act. The City plans to correct this for fiscal year 2016.

Notes to the Financial Statements

2. COMPLIANCE AND ACCOUNTABILITY

B. Budget Variances

During the year, the City incurred both positive and negative revenue/other financing sources variances compared to amounts budgeted, as follows:

						Variance	
		Unaudited		Positive			
	_	Budget	•	Actual		(Negative)	
General Fund							
Revenues:							
Property taxes	\$	43,013,489	\$	43,740,071	\$	726,582	
Sanitation		3,826,339		3,070,248		(756,091)	

<u>Property taxes:</u> The City used the initial property tax estimates for the budget and not the final warrant to be conservative.

<u>Sanitation:</u> The budget was adopted using a rate which included a proposed increase. The City Council adopted a lower rate which caused this variance. This has been corrected for fiscal year end 2016.

Major Streets

Other Financing Sources (Uses)

Transfers In \$ 5,129,934 \$ 1,622,818 \$ (3,507,116)

This category has an unfavorable variance as the budget for Transfers in was based on an estimated use of bond proceeds. Since bonds were not sold until May 2015, the road projects were in the initial phases and a smaller transfer was required.

Local Streets

Revenues:

Property taxes \$ 2,524,107 \$ 2,572,988 \$ 48,881

<u>Property taxes:</u> The City used the initial property tax estimates for the budget and not the final warrant to be conservative.

Parks and Recreation

Revenues:

Property taxes \$ 3,994,201 \$ 4,072,156 \$ 77,955 Charges for Services 2,134,705 2,046,031 (88,674)

<u>Property taxes:</u> The City used the initial property tax estimates for the budget and not the final warrant to be conservative.

Charges for services: Golf and recreational programs received lower than anticipated revenues.

- 2. COMPLIANCE AND ACCOUNTABILITY
- **B.** Budget Variances (continued)

				Variance
		Unaudited		Positive
	_	Budget	Actual	(Negative)
Cable Television				
Revenues:				
Cable royalties	\$	1,191,675	\$ 1,910,925	\$ 719,250

Revenues were generated by an additional cable television provider. These revenues were reviewed in 2016 including adjustments to the budget.

Drug Law Enforcement

Revenues:

Federal forfeitures	\$ 80,000	\$ 15,640	\$ (64,360)
Other	11,000	287	(10,713)

<u>Federal forfeitures:</u> The unfavorable variance is due to the uncertain nature of the activity. Revenues from drug seizures will be recognized as cases are adjudicated in court. The City will now only adopt a budget with the use of fund balance and amend the budget as forfeitures are received.

<u>Other:</u> This category's unfavorable variance is due to the uncertain nature of the activity and will not be budgeted until actual revenues are realized.

Library

Revenues:

Property taxes \$ 6,046,292 6,515,365 \$ 469,073

<u>Property taxes:</u> The City used the initial property tax estimates for the budget and not the final warrant to be conservative.

- 2. COMPLIANCE AND ACCOUNTABILITY
- **B. Budget Variances (continued)**

					Variance
		Unaudited			Positive
	_	Budget	_	Actual	(Negative)
Michigan Works Gran	nts		_		
Revenues:					
Intergovernmental:					
Federal	\$	3,300,000	\$	1,681,490	\$ (1,618,510)

The federal funding budgeted was greater than the amount awarded due to the timing of grant award.

Auto Theft Grant Fund

Revenues:

Intergovernmental:

State \$ 154,693 \$ 126,422 \$ (28,271)

The variance is due to a timing difference when revenues are received from the State.

Donations, Memorial Trusts & Sponsorships

Revenues:

Contributions \$ 200,000 \$ 120,060 \$ (79,940)

The City estimates contributions because they are unknown at the time of budgeting.

3. DEPOSITS AND INVESTMENTS

Michigan Compiled Laws section 129.91 (Public Act 20 of 1943, as amended), authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The City is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Pension and other post-employment benefits trust fund is also authorized by Michigan Public Act 314 of 1965, as amended, to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate, debt or equity of certain small businesses, certain state and local government obligations and certain other specified investment vehicles.

The City has designated 11 financial institutions for the deposit of its funds. The investment policy adopted by the council in accordance with Public Act 196 of 1997 is in accordance with statutory authority; however, the City employs a more conservative investment policy and invests only in the highest rated commercial paper. The City participates only with qualified banks and primary investment firms that adhere to the specific guidelines established by industry practice for repurchase agreements. Guidelines require that securities underlying repurchase agreements must have a market value of at least 102% of the cost of the repurchase agreement.

The Southfield Employees Retirement System (SERS) designated one bank for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 is in accordance with statutory authority. Various professional investment managers are contracted to assist in the managing of this fund's assets.

The City's Fire and Police Retirement System (FPRS) designated one bank for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 is in accordance with statutory authority. Various professional investment managers are contracted to assist in the managing of this fund's assets.

The Southfield Retiree Health Care Benefits Plan & Trust System (RHC) designated one bank for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 is in accordance with statutory authority. Various professional investment managers are contracted to assist in the managing of this fund's assets.

3. DEPOSITS AND INVESTMENTS (continued)

The City, pension funds, and other post-employment benefits trust funds' cash and investments are subject to several types of risk, which are examined in more detail:

Custodial credit risk of bank deposits:

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it.

City – The City's investment policy requires all investment transactions be conducted on a delivery versus payment basis. All securities, evidenced by a safekeeping receipt, shall be held by a third party custodian. At year end, the City had bank deposits (certificates of deposits, checking, and savings accounts) totaling \$29,548,805, of which \$27,387,689 were uninsured and uncollateralized. Included in the total deposits at year-end are component unit assets with a book balance of approximately \$7.5 million. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution it deposits funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

SERS – The SERS investment policy does not have a deposit policy for custodial credit risk. At year end, the SERS had no bank deposits (certificates of deposit, checking and savings accounts) that were uninsured and uncollateralized.

FPRS – The FPRS investment policy does not have a deposit policy for custodial credit risk. At year end, the FPRS had no bank deposits (certificates of deposit, checking and savings accounts) that were uninsured and uncollateralized.

RHC – The RHC investment policy does not have a deposit policy for custodial credit risk. At year end, the RHC had no bank deposits (certificates of deposit, checking and savings accounts) that were uninsured and uncollateralized.

3. DEPOSITS AND INVESTMENTS (continued)

Interest rate risk:

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates.

At year end, the weighted average maturities of investments are as follows:

City – The City's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with an original maturity of 180 days or less.

		Weighted Average
Investments:	Fair Market Value	Maturity
FHLB	28,094,207	2.92 years
FNMA	5,065,465	3.62 years
U.S. Treasury	2,966,835	4.45 years
Macomb Interceptor Drain Dist	2,318,745	3.23 years
Bloomfield Township	509,980	2.74 years
Farmington	483,321	6.39 years
FHLMC	15,703,397	3.47 years
Michigan State	1,961,180	6.08 years
Local Government Investment Pool	100,843,699	1.31 years

SERS – The SERS investment policy does not restrict investment maturities.

	Weighted Average	
Fair Market Value	Maturity	
304,824	18.51 years	
4,883,537	9.75 years	
709,196	7.37 years	
860,170	.35 years	
4,627	7.05 years	
1,655,338	21.42 years	
1,304,897	9.71 years	
196,968	7.54 years	
3,962,642	8.56 years	
	304,824 4,883,537 709,196 860,170 4,627 1,655,338 1,304,897 196,968	

3. DEPOSITS AND INVESTMENTS (continued)

FPRS – The FPRS investment policy does not restrict investment maturities.

		Weighted Average
Investments:	Fair Market Value	Maturity
Corporate asset backed securities	1,786,881	7.36 yeas
Corporate bonds	9,603,462	7.00 years
Corporate bonds	56,760	Not Available

3. DEPOSITS AND INVESTMENTS (continued)

Securities lending arrangements:

SERS – As permitted by state statutes and under the provisions of a securities lending authorization agreement, the SERS lends securities to broker-dealers and banks for collateral that will be returned for the same securities in the future. The SERS's custodial bank manages the securities lending program and receives cash as collateral. Borrowers are required to deliver collateral for each loan equal to not less than 102 percent of the market value of the loaned securities. During the year ended June 30, 2015, only United States currency was received as collateral.

The SERS did not impose any restrictions during the fiscal year on the amount of loans made on its behalf by the custodial bank. There were no failures by any borrowers to return loaned securities or pay distributions thereon during the fiscal year. Moreover, there were no losses during the fiscal year resulting from a default of the borrowers.

The SERS and the borrower maintain the right to terminate all securities lending transactions on demand. At year end, the SERS had no credit risk exposure to borrowers. The collateral held and the fair market value of underlying securities on loan for the SERS at year end was \$3,199,472 and \$3,050,968, respectively.

FPRS – As permitted by state statutes and under the provisions of a securities lending authorization agreement, the FPRS lends securities to broker-dealers and banks for collateral that will be returned for the same securities in the future. The FPRS's custodial bank manages the securities lending program and receives cash as collateral. Borrowers are required to deliver collateral for each loan equal to not less than 102 percent of the market value of the loaned securities. During the year ended June 30, 2015, only United States currency was received as collateral. The cash collateral is invested in a pool by Northern Trust on behalf of the FPRS.

The FPRS did not impose any restrictions during the fiscal year on the amount of loans made on its behalf by the custodial bank. There were no failures by any borrowers to return loaned securities or pay distributions thereon during the fiscal year. Moreover, there were no losses during the fiscal year resulting from a default of the borrowers or custodial bank.

The FPRS and the borrower maintain the right to terminate all securities lending transactions on demand. At year end, the FPRS had no credit risk exposure to borrowers. The collateral held and the fair market value of underlying securities on loan for the FPRS at year end was \$30,782,534 and \$30,141,084, respectively.

4. RESTRICTED ASSETS

The following is the detail of the governmental type activities (includes associated governmental funds) restricted assets at year end:

Governmental funds (with associated governmental funds):

Capital Projects:

Funds held by Oakland County drain commissioner to be used for construction and maintenance of drains

\$ 37,130

Internal Service:

Funds on deposit held by the insurance carrier related to workers' comp and general insurance accruals

4,442,044

Total restricted assets

4,479,174

5. DEFERRED OUTFLOWS, INFLOWS AND RECEIVABLES

At the end of the current fiscal year, the various components of deferred outflows of resources are as follows:

		Ass	ociated	Total				
	Governmental	Gove	nmental	Governmental		Business-type		Component

7. LONG-TERM DEBT AND OTHER OBLIGATIONS (continued)

The City has pledged its full faith and credit for the bonded indebtedness of the City of Southfield Building Authority and Southfield Library Building Authority.

The Economic Development Corporation (EDC) has issued revenue bonds collateralized by a promissory note from certain commercial enterprises receiving the proceeds of the bonds. Since the EDC has assigned its interest in the notes receivable to the trustees of the revenue bonds, and since the revenue bonds are not an obligation of the City, the revenue bonds and related notes receivable have not been reflected in the combined financial statements of the City.

By statute, the City's general obligation and component unit debt in the aggregate is restricted to 10% of the state equalized value of all property within the City. The City's special assessment debt is restricted to 12%. The City currently has no outstanding special assessment debt. For the current year, the state equalized value of the property within the City was \$ 2,605,837,331. The City has issued and outstanding \$30,596,763 of general obligation bonds, subject to a limit of \$260,583,733.

The contractual obligations to the State within the Business-type activities in the previous exhibit are the result of the State of Michigan's issuance of bonds on the City's behalf. The City has pledged substantially all revenue of the water and sewer fund, net of operating expenses, to repay the above water and sewer revenue bonds. Proceeds from the bonds provided financing for the construction of the water and sewer mains to include the west side of the City. The bonds are payable solely from the net revenues of the water and sewer system. The remaining principal and interest to be paid on the bonds is \$14,317,000. During the current year, net operating revenues of the system, was \$2,722,487 compared to the annual debt requirement of \$2,397,374.

The annual requirements (excluding the other long-term obligations) on bonded debt to pay principal and to pay interest on debt outstanding at year end (in thousands of dollars) are as follows:

	Go	vernmental		Bu	siness-type	
	;	activities		Wat	ter and sewe	er
	Prin.	Int.	Total	Prin.	Int.	Total
2016	7,228	2,747	9,975	2,120	323	2,443

7. LONG-TERM DEBT AND OTHER OBLIGATIONS (continued)

Defeased Debt and Advanced Refunding:

During the year, the City issued \$10,000,000 in general obligation bonds with an interest rate of 2.17%. A total of \$4,460,000 was issued for new street improvements and \$5,540,000 was used to advance refund \$5,455,000 of outstanding general obligation bonds with an average interest rate of 3.88%. For the advance refunding, the net proceeds of \$5,509,000 (after payment of \$31,000 in underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered defeased and the liability for the bonds has been removed. The advance refunding reduced total debt service payments over the next eleven years by \$163,971, which represents an economic gain of approximately \$159,468.

During the year, the City issued \$21,765,000 in general obligation bonds with an average interest rate of 4.38%. The proceeds of those bonds were used to advance refund \$23,190,000 of outstanding general obligation bonds with an average interest rate of 5.07%. The net proceeds of \$23,775,577 (after payment of \$100,582 in underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered defeased and the liability for the bonds has been removed. The advance refunding reduced total debt service payments over the next fifteen years by approximately \$3,866,510, which represents an economic gain of approximately \$3,415,020.

8. INTERFUND BALANCES AND TRANSFERS

Interfund receivable and payable balances related to the governmental, associated governmental and business-type funds at year end are as follows:

Payable Fund				
General	Road bond	Non-major	Internal	Total
<u>fund</u>	construction	funds	service funds	payable fund
	\$	510,375		\$ 510,375
51,460,217 _\$	4,725	1,533,842 \$	537,120	3,535,904
1,460,217	4,725	2,044,217	537,120	4,046,279
vities:				
246,766		623,825		870,591
57,573	3,915,371			3,972,944
5 <u>1,764,556</u> \$	3,920,096 \$	2,668,042 \$	537,120	\$ 8,889,814
	fund 5 1,460,217 \$ 1,460,217 vities: 246,766 57,573	General fund construction \$ 1,460,217 \$ 4,725 1,460,217 4,725 vities: 246,766 57,573 3,915,371	General fund Road bond construction Non-major funds 5 1,460,217 \$ 4,725 1,533,842 \$ 1,460,217 vities: 246,766 623,825 57,573 3,915,371 623,825	General fund Road bond construction Non-major funds Internal service funds \$ 510,375 \$ 510,375 \$ 537,120 \$ 1,460,217 \$ 4,725 1,533,842 \$ 537,120 vities: 246,766 623,825 57,573 3,915,371 4,725 4,725

The above interfund balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made. All interfund balances are expected to be collected within one year.

8. INTERFUND BALANCES AND TRANSFERS (continued)

Interfund transfer revenues and expenditures related to the governmental and associated governmental funds at year end are as follows:

		Transfers In	_		
	No	Internal		Total	
Transfers Out:	govern	mental funds	service		transfers out
Governmental activities:					
General fund	\$	1,168,831		\$	1,168,831
Road bond construction		4,356,772			4,356,772
Other non-major funds		1,909,606 \$	573,456		2,483,062
Total governmental activities	;	7,435,209	573,456		8,008,665
Associated governmental activi	ties:				
Internal service funds		1,058,571		_	1,058,571
Total transfers in	\$	8,493,780 \$	573,456	\$	9,067,236

For the most part, interfund transfers occur during the normal course of operations to fund capital projects. In some cases dedicated millage revenues are recorded in individual special revenue funds and are used by other funds for debt payments.

Advances by the Local improvement revolving fund to other primary government funds and component units are as follows:

PRIMARY GOVERNMENT

Non-major governmental

Parks & recreation	\$ 24,602
Capital improvement	1,395,996
Special assessment construction	270,851
Total primary government	\$ 1,691,449

DISCRETELY PRESENTED COMPONENT UNITS

Local development finance authority \$ 1,401,387

9. COMMITMENTS AND CONTINGENCIES

Risk Management

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The City participates in the Michigan Municipal Risk Management Authority (MMRMA) risk pool for claims relating to bodily injury, personal injury, property damage to property of others and City owned property, public officials and law enforcement liability, and statutory Michigan "no fault" for owned automobiles. The City is self-insured for a majority of its healthcare costs and for workers' compensation claims up to \$600,000 per occurrence. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The MMRMA program is approved and regulated by the Michigan Insurance Bureau and provides coverage of \$15 million per occurrence, with the first \$250,000 self-insured retention being the responsibility of the City for all liability claims. For property damage claim coverage, the MMRMA provides combined property coverage of \$167 million, with the City's self-insured retention responsibility being as follows:

	City's Self Insured Retention
Vehicle Damage	\$1,000 per vehicle for any vehicle with a value greater than \$15,000.
	Fully responsible for vehicles with a value under \$15,000.
Property and Crime	\$2,500 deductible
Sewage System Outflow	\$500,000 per occurrence

The City estimates the liability for workers' compensation and general property and liability claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. The estimates are recorded in the Insurance risk retention fund.

Changes in the estimated liability for workers' compensation and general property and liability claims for the past two fiscal years were as follows:

	2015	2014
\$	2,986,883 \$	1,693,623
tes	446,502	2,849,084
	(1,338,494)	(1,555,824)
\$	2,094,891 \$	2,986,883
	\$ tes - \$ _	\$ 2,986,883 \$ tes 446,502

9. COMMITMENTS AND CONTINGENCIES (continued)

The City estimates that claims incurred but not reported for the self-insured medical plan totaled \$792,577 at year end. This liability is recorded as part of the general and medical claims' liability at year end, plus the year-end settlement of amounts underpaid during the fiscal year of \$770,905 for net liability of \$1,563,482.

Litigation

The City is a defendant to various claims, legal actions and complaints arising in the ordinary course of business. The City denies the allegations and plans a vigorous defense. In the opinion of legal counsel, all such matters as indicated above are adequately covered by insurance, or if not so covered, are without merit or of such kind, or involve such amounts that an unfavorable disposition would not have a material effect on the financial position of the City.

Tax Appeals to the Michigan Tax Tribunal

The City has several outstanding property tax assessment appeals totaling \$66,141,413 in taxable value to the Michigan Tax Tribunal. The City estimates the full contested amount in tax dollars to be \$1,603,049 for the governmental funds, exclusive of interest and penalties. However, based on management's analysis in conjunction with their third party attorney and City Assessor, the City believes the true potential loss to be \$801,525. The City considers tax appeals similar to other claims and judgments and accordingly any adjustments are reported at the time the Michigan Tax Tribunal issues its ruling.

10. PROPERTY TAXES

Property taxes are levied each July 1 on the taxable value of property, as equalized by the State of Michigan at 50% of estimated market value as of the preceding December 31 and subject to the tax limitations prescribed by state law. The state equalized valuation of real and personal property located in the City, based on the December 31, 2013 valuation, was \$2,605,837,331 and the unadjusted taxable value was \$2,391,992,576. The City's operating tax rate is 6.6094 which is the charter limit reduced by the Headlee Amendment. With the newly voted millage and the other previously authorized millage, including those for special operations, pensions and debt retirements, the total tax rate for the City is 24.2314 (excluding the DDA millage). The sum of these rates generated \$56,225,320 in property tax revenues reported on the financial statements net of adjustments.

In 1994, Proposal A/Public Act 415 was approved by Michigan voters. It requires that annual increases in the taxable value of individual properties that remain in the same ownership be limited to the lesser of five percent or the rate of inflation. Properties are adjusted to market value for purposes of property taxation only at the time of sale or transfer. Utilizing a 2014 rate of inflation cap of 1.6%, the City of Southfield's 2013-14 State Equalized Evaluation (SEV) of \$2,605,837,331 was capped at a Taxable Assessed Valuation (TAV) of \$2,391,992,576.

Taxes are due July 1 and December 1 (the lien dates) and are collectible through August 31 and February 14, respectively (the collection dates), without penalty. The tax levy is based on a December 31 assessment date. After February 28, all taxes are declared delinquent. Delinquent property taxes are turned over to the County Treasurer who assumes responsibility for their collection and, at the same time, reimburses the City for the total amount of delinquent real property taxes.

11. PENSION TRUSTS

A. Pension Plan description

Plan administration -

The Southfield Employee Retirement System Pension Board administers the City of Southfield General Employees' Pension Plan (SERS) - a single employer defined benefit pension plan that provides pensions for all permanent full-time general employees of the City of Southfield (the "City"). Benefit terms have been established by contractual agreements between the City and the various employee union representation for employees in a collective bargaining group; the benefit terms are established by the City Council and may be amended by future council actions for the non-union employees. Amendments are subject to the same process.

Management of the SERS plan is vested in the Pension Board, which consists of seven members—two elected by plan members, one elected by the retired members, three appointed by the City Council, one appointed by the Mayor. There is also one Alternate Member, who serves as an alternate only to the three members appointed by the City Council.

The Southfield Fire & Police Retirement System Pension Board administers the City of Southfield Fire & Police Retirement System (FPRS) - a single employer defined benefit pension plan that provides pensions for all Fire & Police employees of the City of Southfield (the "City"). Benefit terms have been established by P.A. Act 345 and contractual agreements between the City and the various Fire & Police unions; the benefit terms are established by P.A. Act 345 and may be amended by future union contracts. Amendments are subject to the same process.

Management of the FPRS Plan is vested in the Pension Board, which consists of five members—two elected by plan members, two appointed by the City Council and the Treasurer.

Plan membership -

At year end, the SERS pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	326
Inactive plan members entitled to but not yet receiving benefits	41
Active plan members	266
Total	633

At year end, the FPRS pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	318
Active plan members	211
Total	529

11. PENSION TRUSTS (continued)

A. Pension Plan description

Benefits provided -

The SERS pension plan provides retirement, disability, and death benefits. Benefit terms are established by contractual agreements between the City and the various employee union representation for employees in a collective bargaining group. The benefit terms are established by the City Council and may be amended by future council actions for the non-union employees. Amendments are subject to the same process.

Two individuals receive benefits from the SERS pension plan that are attributable to the purchase of an insurance contract. One individual collects \$230.18/month as a retiree, plus \$164.45/month as the surviving spouse of a retiree. The second individual collects \$460.42/month as the surviving spouse of an employee who died in service after satisfying the vesting requirement. The benefits were based on the pension formula in place at the commencement of the benefit (years of service x final average compensation x multiplier x reduction factor (if any, due to early retirement or joint & survivor option)). The obligation for these payments was transferred to Royal Maccabees Insurance Company, which has since transferred the obligation to a payment agent.

Contributions –

Article 9, Section 24 of the State of Michigan constitution requires that financial benefits arising on account of employee service rendered in each year be funded during that year. Accordingly, the SERS & FPRS Pension Boards retain independent actuaries to determine the annual contributions. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

SERS contribution requirements of plan members are established and may be amended by the City Council in accordance with the City Charter, union contracts and plan provisions. At year end, the average active member contribution rate was 4.98 percent of annual pay, and the City's average contribution rate was 23.39 percent of annual payroll.

FPRS contribution requirements of plan members are established and may be amended by union contracts. At year end, the average active member contribution rate was 2.46 percent of annual pay, and the City's average contribution rate was 31.68 percent of annual payroll.

Deferred Retirement Option Program -

The FPRS plan offers certain employees the ability to continue service and be paid a salary after they are fully vested; this program credits the employee for benefit payments that would have been paid, and pays them out with interest at either 4% or 2% depending on union and DROP date after the employee fully retires (discontinued providing employee services to the City of Southfield). At year end, the Plan has \$7,976,927 accumulated in DROP accounts for active members in the program as well as \$4,925,653 accumulated in DROP accounts for members who have retired but have not yet withdrawn those funds.

11. PENSION TRUSTS (continued)

B. Pension Plan Investments - Policy and Rate of Return

Investment policy -

The SERS pension plan's policy in regard to the allocation of invested assets is established and may be amended by the City Council by a majority vote of its members. It is the policy of the City Council to pursue an investment strategy that manages risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Plan's adopted asset allocation policy at year end:

Asset class	Target Allocation
Domestic Equity	48.0%
International Equity	12.5%
U.S. Fixed Income	20.0%
Global Fixed Income	5.0%
Real Estate	6.0%
Timberlands	3.5%
Hedge Fund	5.0%

The FPRS plan's policy in regard to the allocation of invested assets is established and may be amended by the Pension Board by a majority vote of its members. It is the policy of the Pension Board to pursue an investment strategy that manages risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Plan's adopted asset allocation policy at year end:

Asset class	Target Allocation

International Equity	17%
U.S. Fixed Income	25%
Real Estate	14%
Hedge Fund	10%

- 11. PENSION TRUSTS (continued)
- B. Pension Plan Investments Policy and Rate of Return

Concentrations –

At year end, the SERS plan held approximately 24.0% of its investment portfolio in the Comerica S&P 500 Index Fund, 18.56% of its investment portfolio in the Victory Mid Cap Equity Fund, 13.66% of its investment portfolio in the SouthernSun Small Cap Fund, 9.96% of its investment portfolio in the LSV International Equity Fund, 7.90% of its portfolio in the WCM Focused Growth International Fund, and 12.22% of its portfolio in the Pacific Fixed Income Fund.

At year end, the FPRS plan held approximately 8.87% of its investment portfolio in the Loomis Sayles LC Value Fund, 9.63% of its investment portfolio in the NTGI S&P Midcap 400 Fund, 12.46% of its investment portfolio in the LSIA Dividend Aristocrats Fund, 7.14% of its investment portfolio in the 1607 Capital Partners Fund, 11.68% of its investment portfolio in the Loomis Sayles Full Discretion Fund, 11.76% of its investment portfolio in the Bradford & Marzec Fund and 11.16% of its investment portfolio in the Nantucket Institutional Hedge Fund.

Rate of return –

At year end, the annual money-weighted rate of return on SERS pension plan investments, net of pension plan investment expense, was 1.15 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

At year end, the annual money-weighted rate of return on the FPRS pension plan investments, net of pension plan investment expense, was -0.93 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

C. Net Pension Liability of the City

The City adopted GASB Statement No. 68, which is the required measurement of pension expense as it is earned rather than as it is funded. The net pension liability of the City has been measured as of June 30, 2015 and is composed of the following for the SERS plan:

Total pension liability	\$ 139,375,667
Plan fiduciary net position	115,094,332
City's net pension liability	\$ 24,281,335
Plan fiduciary net position, as a percentage of the total pension liability	82.58%

11. PENSION TRUSTS (continued)

C. Net Pension Liability of the City

Changes in the net pension liability during the measurement year were as follows for the SERS plan:

	Increase (Decrease)					
		Total Pension	Plan Net	Net Pension		
Changes in Net Pension Liability		Liability	Position	Liability		
Balance at June 30, 2014	\$	137,669,503 \$	118,028,927 \$	19,640,576

At year end, the City recognized pension expense of \$7,589,675. At year end, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for the FPRS plan from the following sources:

		Deferred		Deferred
		Outflows of		Inflows of
		Resources		Resources
Difference between expected and actual experience	\$	539,443	\$	-
Net difference between projected and actual earnings on pension plan	_	9,806,580	_	
Total	\$_	10,346,023	\$_	-

11. PENSION TRUSTS (continued)

C. Net Pension Liability of the City

Amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows for the FPRS plan:

Years ending	
June 30	 Amount
2016	\$ 2,693,526
2017	2,693,526
2018	2,507,326
2019	2.451.645

Total pension expense for the City for the fiscal year is \$11,110,639 for both retirement plans.

Actuarial assumptions -

The June 30, 2015 total pension liability was determined by an actuarial valuation as of June 30, 2014, which used updated procedures to roll forward the estimated liability to June 30, 2015. The valuation used the following actuarial assumptions, applied to all periods included in the measurement for the SERS plan:

Inflation	3.5 percent		
Salary increases	3.5 to 9.5 percent including inflation		
Investment rate of return	8.0 percent, net of pension plan investment expense,		
	including inflation		

The June 30, 2015 total pension liability was determined by an actuarial valuation as of June 30, 2014, which used updated procedures to roll forward the estimated liability to June 30, 2015. The valuation used the following actuarial assumptions, applied to all periods included in the measurement for the FPRS plan:

Inflation	4.0 percent
Salary increases	4.0 to 9.0 percent including inflation
lavo atmonstrata af natura	7.75 percent, net of pension plan investment expense,
Investment rate of return	including inflation

11. PENSION TRUSTS (continued)

C. Net Pension Liability of the City

Mortality rates for SERS were based on the RP-2000 Mortality Combined Healthy Tables, projected to 2015, with a 1 year set-forward for males.

Mortality rates for FPRS were based on the RP-2000 Mortality Combined Healthy Tables, projected to 2015.

For SERS & FPRS plan the actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2005 to June 30, 2010.

Discount rate -

For the SERS plan, a single discount rate of 8.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 8.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. For purposes of the valuation, the expected rate of return on pension plan investments is 8.00%; the municipal bond rate is 3.80%; and the resulting single discount rate is 8.00%.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return as of June 30, 2015 for each major asset class included in the pension plan's target asset allocation, as disclosed in the investment footnote, are summarized in the following table on the next page:

11. PENSION TRUSTS (continued)

C. Net Pension Liability of the City

Asset class	Long-term expected real rate of return
Domestic Equity	7.5%
International Equity	8.5%
U.S. Fixed Income	2.5%
Global Fixed Income	3.5%
Real Estate	4.5%
Timberland	4.5%
Hedge Fund	5.0%

For the FPRS plan, a single discount rate of 7.75% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.75%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at actuarially determined contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. For purposes of the valuation, the expected rate of return on pension plan investments is 7.75%; the municipal bond rate is 3.80% and the resulting single discount rate is 7.75%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocations were provided by the client as of June 30, 2015. Best estimates of arithmetic real rates of return were approximated using expected returns from eight investment consultants. For each major asset class that is included in the pension plan's target asset allocation as of June 30, 2015, these best estimates are summarized in the following table on the next page:

11. PENSION TRUSTS (continued)

C. Net Pension Liability of the City

Asset class	Long-term expected real rate of return
Domestic Equity	7.92%
International Equity	6.12%
U.S. Fixed Income	2.10%
Real Estate	5.88%
Hedge Fund	3.91%

Sensitivity of the net pension liability to changes in the discount rate -

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the SERS plan's net pension liability, calculated using a single discount rate of 8.00%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% decrease	Current discount rate	1% increase
	7.00%	8.00%	9.00%
Net pension liability of the City	\$38,003,453	\$24,281,335	\$12,459,421

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the FPRS plan's net pension liability, calculated using a single discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% decrease	Current discount rate	1% increase
	6.75%	7.75%	8.75%
Net pension liability of the City	\$64,598,614	\$41,412,658	\$21,999,908

11. PENSION TRUSTS (continued)C. Net Pension Liability of the City

Actuarial Methods and Assumptions

- 1) Normal cost and the allocation of benefit values between service rendered before and after the valuation date was determined using an entry age normal for SERS and an individual entry-age actuarial cost method for FPRS having the following assumptions.
 - The annual normal cost for each individual active member, payable from the date of employment to the date of retirement, is sufficient to accumulate the value of the members benefit at the time of retirement
 - Each annual normal cost is a constant percentage of the members year-by-year projected covered pay.
- 2) Unfunded actuarial accrued liabilities were amortized by level (principal and interest combined) percent-of-payroll contributions over a period of 26 years for SERS and 23 years for FPRS on a closed basis for both plans. Unfunded actuarial accrued liabilities (the portion of total liabilities not covered by present assets or expected future normal cost contributions) were amortized by level percent-of-payroll contributions.

Actuarial assumptions for FPRS include an assumed rate of inflation of 4.0%, an assumed investment income rate of 7.75% and a 4 year smoothed market asset valuation method prior to 6/30/12 and 5 year smoothed market asset valuation method starting 6/30/12, for SERS, an assumed rate of inflation of 3.5%, an assumed investment rate of return of 8%, and a 5 year smoothed market asset valuation method.

If the number of active members remains constant, then the total active member payroll projected salary increases in SERS are 3.5 to 9.5% for seniority/merit which includes 3.5% annually for inflation, and 4.0 to 9.0% for seniority/merit in FPRS which includes 4.0% annually for inflation.

Each annual normal cost is a constant percentage of the members' year by year projected covered pay. The funding credit and unfunded actuarial accrued liabilities are amortized as a level percent of payroll over a period of 26 years for SERS and 23 years for FPRS. The aggregate unfunded actuarial accrued liability/full funding credit for the FPRS is not amortized. The interest on the full funding credit offsets normal cost contributions.

12. OTHER POST-EMPLOYMENT BENEFITS

Plan description: The City provides retiree health care benefits to eligible employees and their spouses through the Retiree Health Care Benefits Plan and Trust (the "Trust") under Section 115 of the Internal Revenue Code of 1986 as amended. Benefits are provided to FPRS employees and SERS groups. As of June 30, 2013 the most recent valuation prepared, the SERS Trust and the FPRS Trust plans have 554 and 488 members respectively (including employees in active service, terminated employees' not yet receiving benefits, and retired employees and beneficiaries currently receiving benefits).

This is a single employer defined benefit plan administered by the City of Southfield Retiree Health Care Benefits Plan and Trust. The benefits are provided under collective bargaining agreements or other legal authority for providing benefits. The plan does not issue a separate stand-alone financial statement.

Funding policy: The collective bargaining agreements (or other legal authority) require a contribution of two percent of bi-weekly pay for all Trust members. The City has no obligation to make contributions in advance of when the insurance premiums are due for payment (in other words, this may be financed on a "pay-as-you-go" basis). Administrative costs are paid by the Plan through employer contributions.

Funding progress: For the year ended June 30, 2015, the City has estimated the cost of providing retiree health care benefits through an actuarial valuation as of June 30, 2013. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed twenty-seven years. This valuation's computed contribution and actual funding are summarized on the following page:

12. OTHER POST-EMPLOYMENT BENEFITS (continued)

		SERS	FPRS	Total
Annual required contribution (recommended)	\$	7,199,411 \$	9,750,985 \$	16,950,396

^{*} Actuarial value of assets includes amounts held in the retiree healthcare trust and the 401(h) balance included in the pension plan

12. OTHER POST-EMPLOYMENT BENEFITS (continued)

Actuarial methods and assumptions: Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented above presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2013 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 5.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9 and 9.5 percent initially (Fire and Police and SERS, respectively), reduced by decrements to an ultimate rate of 4.0 percent after ten years. Both rates included a 4.0 percent inflation assumption for Fire and Police; while the general employees' is assumed to be 3.5 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2015 was twenty-seven years.

13. DEFERRED COMPENSATION

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Loans are permitted from this plan, subject to guidelines established by the employer.

It is the opinion of the City's legal counsel that the City has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

In accordance with GASB Statement No. 32, Accounting and financial reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, the City has removed the plans' assets from the financial statements.

Equalization reserves		350,000
Specific programs (Drains-at-large)		
Equalization reserves		50,000

15. SUBSEQUENT EVENT

Subsequent to year end on December 17, 2015, the City purchased the Northland Center for \$2.4 million. The Northland Center is a 159-acre shopping mall in the City that closed in 2015. The City plans to hold it for resale to facilitate residential and or commercial development.

16. REPORTING CHANGE – RESTATEMENT OF BEGINNING OF YEAR NET POSITION

During the current year, the City adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions. As a result, the government-wide statements and the proprietary funds now include a liability for the unfunded legacy costs. Some of the changes in this net pension liability will be recognized immediately as part of the pension expense measurement, and part will be deferred and recognized over future years. Refer to the pension footnotes (Note 11) for further details. This change does not impact the General Fund or any other governmental fund.

The financial statements for the year ended June 30, 2014 have been restated in order to adopt GASB Statement No. 68. The effect of this new accounting standard was a decrease in net position to record the net pension liability at June 30, 2014.

As a result of implementing this statement, the beginning net position of the governmental activities and business-type activities, including the Water and Sewer Fund, have been restated on the following page:

17. UPCOMING REPORTING CHANGES

In February 2015, the Governmental Accounting Standards Board issued GASB Statement No. 72, Fair Value Measurement and Application. The requirements of this Statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and acceptable valuation techniques. This Statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. GASB Statement No. 72 is required to be adopted for years beginning after June 15, 2015. The City is currently evaluating the impact this standard will have on the financial statements when adopted during the City's 2015-2016 fiscal year.

In June 2015, the GASB issued two new standards addressing accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB). GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans other than Pension Plans, addresses reporting by OPEB plans whereas GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, addresses accounting and reporting by employer governments that provide OPEB benefits to their employees. Along with the currently required statement of fiduciary net position and statement of changes in fiduciary net position, OPEB plans will now be required to include in the financial statement more extensive footnote disclosures and required supplementary information related to the measurement of the OPEB liabilities for which assets have been accumulated. In addition, the City will, after adoption of GASB 75, recognize on the face of the financial statements its net OPEB liability. The City is currently evaluating the impact these standards will have on the financial statements when adopted. GASB 74 is effective for fiscal years beginning after June 15, 2016 whereas GASB 75 is effective one year later.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This Statement will require governments to disclose in their financial statements information related to tax abatement agreements. The City is currently evaluating the impact this standard will have on the financial statements when adopted, during the City's 2016-2017 fiscal year.

Actuarial valuation information relative to the determination of contributions:

Valuation date Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year

in which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry-Age Normal
Amortization method Level percentage, Closed

Remaining amortization period 27 years

Asset valuation method 5- year smoothed market

Inflation 3.50% wage inflation; no explicit price inflation assumption is used in this valuation

Investment rate of return 8.00% (net of investment and administrative expenses)

Salary increases 3.50% to 9.50% including wage inflation

Retirement age Experience-based table of rates that are specific to the type of eligibility condition.

Mortality RP-2000 Mortality Combined Healthy Tables, projected to 2015, with a 1 year set-forward for males

Other information None

Required Supplementary Information Schedule of the Adopted Budget to Final Presentation Reconciliation

While the City does not adopt budgets in accordance with GAAP, the Schedule of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual presented in this CAFR have been modified to meet GAAP standards. The following note reconciles the City's adopted budget, as approved annually by the City Council on a non-GAAP basis, with these schedules which are presented in the CAFR on a GAAP basis. The major modifications are derived from transfers, expenditure reimbursements and fund balance draws being budgeted as revenues and expenditures.

These funds account for the proceeds of specific revenue sources used to finance projects or activities as required by law or contractual agreement. The following funds are currently established:

MAJOR STREETS

Michigan's Act 51 of 1933, as amended, allocates gas and weight taxes to build and maintain roads, roadsides, and storm sewers. Snow removal and traffic control are also supported by this funding source. Major Streets may include federal and state trunk lines maintained by the County and other relatively heavily traversed roads ("mile" roads) maintained by the City. Additional funds are provided through Public Act 298 of 1917 for all Major streets mowing, litter pick-up, street sweeping and catch basin cleaning on all roads throughout the City.

LOCAL STREETS: Michigan's Act 51 of 1933, as amended, allocates gas and weight taxes to build and maintain roads, roadsides, and storm sewers. Snow removal and traffic control are also supported by this funding source. Local streets, which primarily service the residential community, are maintained by the City through a one-mill City tax levy for residential street maintenance and to a lesser degree by Act 51 funding. Additional funds are provided through Public Act 298 of 1917 for all local streets mowing, litter pick-up, street sweeping and catch basin cleaning on all roads throughout the City.

PARKS AND RECREATION

Specific property taxes, grants and user fees are used to operate the ice arena, swimming pool, and activities at parks, playgrounds and other facilities. Golf course activities, which include the Evergreen Hills Golf Course and Pro Shop, Beech Woods Golf Course, Pro Shop and Driving Range, are included in the Parks & Recreation Fund.

CABLE TELEVISION

The Cable Television Fund was established to account for fees received under provisions of the cable television franchise agreement. These fees are used for local programming and certain other purposes.

BLOCK GRANT

Under the Housing and Community Development Act of 1974, as amended, federal grants are targeted for neighborhood beautification, improvement and revitalization and other community improvements; these activities benefit low and moderate income persons in targeted areas as defined by the Department of Housing and Urban Development (HUD).

SPECIAL REVENUE FUNDS (continued)

DRUG LAW ENFORCEMENT

The Drug Law Enforcement fund was established pursuant to Public Act 135 of 1985. As provided by Article 7 of this Act, property associated with controlled substances may be seized and the proceeds from its sale used to enhance law enforcement related to controlled substances.

GRANTS

This fund accounts for individual grants received from Federal, State or other sources.

LIBRARY

Specific property taxes, grants, user fees, state aide and related revenues are used to purchase books and computers, and to operate programs in the Civic Center.

MICHIGAN WORKS GRANTS

The Michigan Works Grants are funded by the Michigan Department of Career Development and the Oakland County Workforce Board and are administered by the Southfield Career Center.

AUTO THEFT GRANT

The Auto Theft Grant fund is a State funded program designed to assist local governments in auto theft investigation and prevention.

DONATIONS, MEMORIAL TRUSTS & SPONSORSHIPS

This fund accounts for endowments, restricted donations and contributions in memory of City employees and City residents.

NON-MAJOR GOVERNMENTAL FUNDS

DEBT SERVICE FUND

This fund accounts for the payment of interest and principal on long-term bonded debt. The City has contracted with Oakland County for indirect repayment of bonds issued for sewers and drains.

DRAINS-AT-LARGE

An at-large assessment is levied upon all property to cover debt service for drains and storm sewers built in the City by Oakland County.

NON-MAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUNDS

These funds account for resources used for the acquisition or major renovation of capital facilities. Disbursements from these funds are primarily for property acquisition and the construction of permanent public improvements. The major financing sources are bond proceeds, transfers from other City funds, internal loans and grants.

LIBRARY BUILDING AUTHORITY CONSTRUCTION

The Southfield Library Building Authority was incorporated June 14, 1999 under the provisions of Act 31, Public Acts of 1948, to purchase or construct, furnish, equip and maintain a Southfield public library building. As provided in Act 31, the Library Building Authority may also issue negotiable bonds to be repaid through rental payments of the Library to the City.

CAPITAL IMPROVEMENTS: The Capital improvements fund is the basic capital project fund of the City, accounting for all major projects not specifically segregated by bond ordinance or under the superintending control of the Building Authority.

BUILDING AUTHORITY CONSTRUCTION

The Southfield Building Authority was incorporated October 16, 1962 under the provisions of Act 31, Public Acts of 1948, to purchase or construct facilities for use by the City. Building Authority bonds are issued to finance large-scale projects, while internal financing is used to fund other construction projects.

SPECIAL ASSESSMENT CONSTRUCTION

This fund accounts for the construction phase of local improvements which benefit specific property owners and are ultimately financed through special assessments. Special assessments collected by this fund are used to pay internal loans borrowed for specific local improvements which benefit property owners.

INTERNAL SERVICE FUNDS

These funds are cost control centers that operate on a full accrual basis to account for the financing of specific equipment and services provided to other City operations based on user charges.

FACILITIES MAINTENANCE

This fund accounts for the ongoing maintenance of the City's physical plant, as well as construction projects carried out by in-house staff. Annual pro-rated maintenance charges and non-recurring special project billings are collected from operating departments in support of this fund's activities.

MOTOR POOL

This fund acquires and maintains vehicles and equipment, including heavy construction & maintenance items and police & fire vehicles.

EQUIPMENT REVOLVING

This fund acquires and maintains office equipment for all operations and provides for replacement of fire equipment, parks and recreation equipment and library equipment.

INSURANCE RISK RETENTION

This fund is utilized to account for retroactive premium adjustments, as a provision for claims in excess of the City's insurance coverage, and for loss prevention and risk management initiatives.

LOCAL IMPROVEMENT REVOLVING

This fund was established to provide a means for the internal financing of public improvements, which could include the purchase and sale of property where appropriate. Most monies loaned to other funds are to be repaid with interest.

FIDUCIARY FUNDS

Fiduciary Funds or Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other City funds. These include Expendable, Nonexpendable, and Pension Trust Funds and Agency Funds. Expendable Trust and Agency Funds are accounted for and reported as Governmental Funds.

TRUST

PENSION TRUST

These funds account for employee and employer pension contributions, accumulated assets, administrative expenses, investment income and payments to beneficiaries. The funds include the Southfield Employee Retirement System and the Fire & Police Retirement System.

RETIREE HEALTH CARE BENEFITS PLAN & TRUST

The fund accounts for employer post retirement health care contributions, accumulated assets, administrative expenses and investment income. Payments for beneficiaries are not anticipated until the reserves for post retirement health care benefits have been depleted in the pension trusts.

Statistical Section June 30, 2015

This part of the City of Southfield's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	Page
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	155
Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	160
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	166
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	169
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	177
Continuing Disclosure Information contained herein complies with Rule 15c2-12, a federal regulation promulgated by the Securities and Exchange Commission, designed to improve disclosure practices in the municipal bond market.	181

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

⁽¹⁾ In accordance with the 1970 State of Michigan Constitution, SEV is 50% of appraised or estimated fair market value.

⁽²⁾ On March 15, 1994, Michigan voters approved changes in the property tax system which affects municipal budgets by placing a cap on taxable value (TV) that is used to compute property tax revenues. Under the changes, effective with the 1995-96 fiscal year, real property assessed value (AV) continues to be adjusted to reflect fair market value, while the taxable value adjustment is limited to the lesser of 5% or the rate of inflation provided the property remained in the same ownership. Upon a property transfer, the cap is removed the following year, increasing the taxable value to the same level as the assessed value, thus established a new base for the again capped taxable value. Previously, real property was adjusted to market value for tax purposes on an annual basis and was not subject to a per parcel limitation or cap. Prior to the 1995-96 fiscal year, all assessed value was taxable. Now, and in the future, some growth in assessed value will not be taxable. The traditional terminology of "State Equalized Value" (SEV) still exists. However, since SEV no longer represents the tax revenue producing power of a municipality, the term "taxable value" is now the fiscally relevant terminology.

⁽³⁾ Assessing department provided corrected data to realign data by fiscal year for FY2002 - FY2010.

Notes:

Source: City of Southfield, Assessing Department

⁽¹⁾ Ratio of TAV ceiling to adjusted TAV.

⁽²⁾ The rollback factor is intended to provide local taxing units with a tax revenue ceiling, equal to 1978 authorized millage rates times 1978 assessments increased only by the official Consumer Price Index (CPI) index plus new construction. Any excess property tax authority above this ceiling is "rolled back" through application of a millage reduction fraction. The 1978 base millage reduction fraction was 1.000, which becomes the upper limit for future factors. As a compound millage reduction factor, the factor for one year is the product of the rollback factor of the previous year multiplied by the ratio of inflated taxable assessed value (TAV) divided by adjusted TAV of the current year. The inflated TAV for any year is calculated by multiplying the TAV of the previous year by the consumer price index for that year. This is compared to the adjusted TAV or the actual TAV for that year less net new construction (additions minus losses).

Facilities: One main Public Safety Building housing Police, and Civilian Support Services, as well as a 36-cell lock up facility operated by Wackenhut.

POLICE PROTECTION

Please note that the Southfield Police Department now uses NET RMS program from Oakland County CLEMIS for reporting incidents and calls for service.

Under this system crime is reported using Michigan Incident Crime Reporting (MICR) guidelines:

Group A Offenses: (serious incidents, which carry maximum penalty under the law: murder, manslaughter, rape, robbery, aggravated assault, breaking and entering, larceny, auto theft, arson, kidnapping/abduction, forgery, fraud, embezzlement, receiving and concealing stolen property, vandalism, weapons violations, commercialized sex, drug law violations, gambling).

POLICE PROTECTION (continued)

Group B Offenses: (fraud, non-forcible sexual, non-violent family, drunk driving, liquor law violations, obstruction, disorderly conduct, arrestable traffic).

Law Violations: Group A Offenses - 5,434

Group B Offenses - 1,216

Traffic Violations: 13,469

Incidents Handled: 50,193

FIRE PROTECTION

Alarms Answered: 13,367 runs
Medical Emergency: 11,295 runs
Fire Runs: 2,072 runs

PARKS & RECREATION

The Southfield Parks and Recreation Department is responsible for 775 acres of parks, nature preserves and open space, and historic properties at 33 sites within the City. There are numerous ball fields, tennis and handball courts, picnic areas and shelters as well as soccer fields, play lots, and sand volleyball courts located throughout the City for residents' enjoyment. The Department is also responsible for a number of historical properties including the Burgh Historical Park, the Miller Barn at Inglenook Park, the Historic Code House, and the Mary Thompson Farm. The Burgh Historical Park includes period gardens with fountains and a gazebo and six historic buildings which bustle with activities from concerts and weddings to a variety of other family and community events. The Mary Thompson Farm features a restored 19th century farm house which is home to the Southfield Historical Society. The Senior Gardens at the Mary Thompson Farm provides plots to over 100 enthusiastic gardeners who offer tours to school and scouting groups.

The Department offers numerous recreation programs at facilities which include: 2 nine-hole golf courses, Evergreen Hills Golf Course and Beech Woods Golf Course, as well as the Beech Woods Driving Range and Heated Tee facility for year round play; the Southfield Sports Arena with its 50 meter outdoor swimming pool, complete with water slide, climbing wall, and kiddie pool with water features, as well as a regulation NHL ice surface indoor; Beech Woods Recreation Center features over 17,000 square feet of gymnasium space. The Center has the capability to run three collegiate basketball games simultaneously, in addition to four volleyball or three tennis or pickleball courts, indoor golf nets, and a complete wellness/fitness center. The Department is also responsible for the Parks and Recreation Building and Southfield Pavilion.

PARKS & RECREATION (continued)

Southfield Parks and Recreation offers many programs for disabled athletes. The Civic Center Park is home to the first Miracle Field in the state; a custom synthetic turf and handicapped accessible dugouts, restrooms, and drinking fountains. The Beech Woods Recreation Center is proud to be the home of the Jr. Thunderbirds Wheelchair Basketball team. Golf programs have also been expanded to include youth programs such as Michigan First Tee and Midnight Golf, along with the PGA sponsored GAIN program for disabled golfers.

In addition to day-to-day programming for all Southfield residents, the Parks and Recreation Department is focused to providing quality, fun special events for families, including the *Daddy Daughter Dinner & Dance, EGGS'travaganza, Family Fun & Safety Night* (in partnership with the Southfield Police and Fire Departments), and *Boo at the Burgh*. Two new events for adults only; *Sips & Sounds*, a wine tasting, and *Brew at the Burgh*, a craft beer tasting, have proved to be popular additions to the department's event programming. Quality entertainment is offered year-round with a variety of concert series including the popular free outdoor concerts held throughout the summer at the Burgh Historical Park Gazebo and *Eat to the Beat* noontime series at City Centre. The Department has received many national awards for excellence in recreational programming, as well as for beautification and environmental maintenance and programming. In October of 2012, the City of Southfield received the President's Award from Keep Michigan Beautiful for the Carpenter Lake Nature Preserve at their annual meeting in Dearborn. This award represents the organization's highest honor which is awarded to communities throughout Michigan.

LIBRARY

Southfield Public Library helps people succeed! The value of the Library is immeasurable – it impacts all who desire to make education, literacy, technology and culture a vital part of their lives. Like reading a book, the magic of the Southfield Public Library and its unique environment unfold before you. Discover it for yourself!

Southfield Public Library welcomes over 1,000 guests daily to utilize our collection of over 290,000 books, movies, music and more. There are more than 170 public use computers in the library and free Wi-Fi is available throughout the building. Visit our website at www.southfieldlibrary.org and search our catalog; using your library card, find information not available on Google about genealogy, homework help, business information, health resources and much more.

The first level houses books, magazines music, movies and audio books for children and young adults. Our children's area provides the sense of discovery - colorful carpet icons greet and direct visitors to special features including the Readers' Treehouse and fireplace, our Storybook Castle with a Dragon's Den and Puppet Theater, the Space Station Program Room, the Imaginarium Garden and Early Literacy Computers. Children's programs are available throughout the year including story times, Battle of the Books, Summer Library Program. Teens have Club Q & A filled with graphic novels, books, music and movies. We have something for every one's interests.

LIBRARY (continued)

The second and third levels provide adults with comfortable areas for study and reading. Amenities include fireplaces, an outdoor terrace, quiet-study rooms, a computer lab, group study rooms and a variety of seating; ensuring there are places for everyone. Printers, copiers and fax machines are available on each level.

We offer books, magazines and newspapers in standard and large print. The Library has great book collections to fulfill pleasure reading and research needs, including items in a variety of languages to meet the needs of our diverse community. Other collections include feature, documentary and foreign movies, all kinds of music and specialized online research sources.

Southfield residents can download an ebook or audio book to their iPad, smartphone, Kindle, nook or ereader via the library's website at www.southfieldlibrary.org.

Our Business StartUp Center is dedicated to helping small businesses and non-profits plan, finance, manage and grow, in the hopes of giving new entrepreneurs the resources to succeed.

In addition to all of those amenities we have librarians to help you with your questions. We can be contacted in person, phone and email. Librarians can suggest great books to read, help you research your term paper, start you on writing your business plan or get you started on a job search. Librarians are your guide to the world of information, both in print and online.

We also preserve the tradition of the Library as a community center and gathering place. Special features include the Southfield History Room, a large meeting room, an auditorium and group study rooms. Throughout the year we host authors, artists, performers and experts on a variety of topics to enlighten and entertain you.
