

NOTICE

October 30, 2020

Dear Village/City Resident:

The paving of 13 Mile Road between Evergreen and Southfield has been complete. The Contractor is preparing for final pavement markings (i.e. lane lines, turn arrows, etc.) and returning the traffic signals to their original location and operation. These two activities need to be coordinated and should be completed after the AM rush hour on Monday, November 2nd, weather permitting.

By the afternoon of Monday, November 2nd, 13 Mile Road should be back open to normal two-way traffic. Please remember that 13 Mile Road between Evergreen and Southfield will now be a 3-lane road (one lane in each direction and a center left turn lane), similar to 13 Mile Road between Southfield and Greenfield.

The Road Commission for Oakland County will be monitoring the traffic signal timing and operation throughout the next couple weeks to determine the need for any modifications, so please be patient with any inefficiencies. In addition, any experiences and observations on the new traffic patterns would be welcome.

Thank you for your patience during this construction project, we know it has not been convenient, but the project will result in long-term improvements for the area.

Should you have any questions or comments, please notify the Consulting Engineers. Thank you.
