While on patrol, Officer observed a male and female arguing in the parking lot in the 16000 Block of W. 9 Mile. Officer observed the female, "squaring up" with the male half, getting in his face and bumping him with her chest. Officer separated both parties and spoke with the male. When the handcuffs were removed from female, Officers attempted to leave the cell. The female was told to stay on her knees until officers left. She refused to comply and stood up and swung her arm and struck Officer with a closed fist on the inside of his right forearm. She then snorted again and spit on the rear of Officers right pant leg. Additional charges were filed against the female for A&B on a Police Officer.

etc. indicating that the female was a prostitute. The female told officers she had only been at the hotel for 2 hours then later changed her story that she got there yesterday. Officers spoke to several witnesses that stated they heard screaming and when they looked out of their rooms, they saw a naked male holding his clothes in his hands and they asked him what was wrong. He stated that the female tried to rob him. The male was not located. It appears the female is a prostitute and was not being truthful with officers. When officers asked to see her messages with the suspect on her phone, she stated they were not available? The female was identified, and incident report was completed.

Special Attention: Larceny from Vehicles

How to prevent this from happening to you!

-Citizens should never leave anything of value inside their vehicle. (Especially Handguns, Purses, Wallets, Cash & Cell Phones!)

- If you have a garage, you should park your vehicle in the garage and lock the garage.

- Wheel Locks are a deterrent but do not leave the wheel lock key in the interior of your vehicle, especially the center console or glove box. This is the first place they will look for the wheel lock.

-After parking your vehicle turn your wheels all the way to the right or the left. This will make it difficult to get the lug nuts off the front wheels.

-If you do not have a garage, try to park your vehicle as close to your residence as possible.

-If you hear any loud noises near where your vehicle is parked, especially during the late night or early morning hours, attempt to look outside without alerting anyone and if someone is tampering with your vehicle immediately calls 911, (Do Not Approach or Scare the Suspects Away) give Police Dispatchers as much information about the

suspect(s) and suspect vehicles as you can. Stay on the phone with Dispatchers until the Police arrive.

-Lots of lighting around the area(s) that you park your vehicles is also very beneficial. Criminals do not like to work in well lighted areas. They prefer to work in darkness because it is difficult to see them.

Special Attention:

Larceny of Packages that were ordered and delivered via Common Carrier.

How to prevent this from happening to you!
