Regarding: **Hooper Boulevard - City of Southfield**

Dear Homeowner/Resident,

Starting on Wednesday, September 3rd, 2025, weather permitting, the contractor will begin investigating existing utilities and delivering materials to your street as part of the Hooper Boulevard Reconstruction Project.

Starting on Monday, September 8th, 2025, weather permitting, work installing the new utilities will begin (Sanitary sewer, water main and storm sewer).

The contractor (DiPonio) will then remove the pavement and grading the road, which will last through mid-October. Asphalt paving will follow and will go through mid-November.

For any water shutoffs, you will be notified 48 hours in advance via flyer, similar to this one as the new water system is changed over. **Restoration is expected to be completed by late November** and a final completion with all items completed/accepted by Spring 2026. If you have any sprinklers, please reach out to one of the contacts below so we can document your home's irrigation system and ensure it is working properly prior to road construction occurring.

IMPORTANT: Please allow yourself 10 extra minutes to enter/exit your residence as there may be short delays for loading and unloading trucks.

We realize this is an inconvenience and we thank you for your patience. If you have any specific questions, please contact OHM in the following order:

1. **James Richardson** **(419) 690-3267**
2. **Kaine Krizanich** **(248) 207-0030**
3. **Cara Parks** **(734) 466-4420**

General questions for the City of Southfield for related issues should be directed to the Engineering Department at (248) 796-4810 between from 8:00 a.m. to 4:30 p.m.
