Special Attention: Larceny from Vehicles
How to prevent this from happening to you!

-Citizens should never leave anything of value inside their vehicle. (Especially Handguns, Purses, Wallets, Cash & Cell Phones!)

- If you have a garage you should park your vehicle in the garage and lock the garage.

- Wheel Locks are a deterrent but don't leave the wheel lock key in the interior of your vehicle, especially the center console or glove box. This is the first place they will look for the wheel lock.

-After parking your vehicle turn your wheels all the way to the right or the left. This will make it difficult to get the lug nuts off the front wheels.

-If you don't have a garage, try to park your vehicle as close to your residence as possible.

-If you here any loud noises near where your vehicle is parked, especially during the late night or early morning hours, attempt to look outside without alerting anyone and if someone is tampering with your vehicle immediately call 911, (Do Not Approach or Scare the Suspects Away) give Police Dispatchers as much information about the suspect(s) and suspect vehicles as you can. -Lots of lighting around the area(s) that you park your vehicles is also very beneficial. Criminals don't like to work in well lighted areas. They prefer to work in darkness because it's difficult to see them.

-Citizens should always be mindful not to leave anything of value in their vehicles. Especially wallets, purses, cash, handguns, cell phones, laptops, jewelry, or anything else of value. If you must leave your handgun in your vehicle it should be kept in a gun lock box that is bolted down in the trunk of the vehicle. At the very least you should try to hide the handgun somewhere that it would be difficult to find. The first place that criminals will look is under the front seat, in the center console or in the glove box.
