

Note from the Planning Department

The Southfield City Council approved various licensing and regulatory provisions for **Medical Marijuana Facilities** on September 16, 2019 as part of Ordinance No. 1709. We anticipate that the Ordinance will be enacted and published sometime in October. The Planning Department will begin taking applications at **8:30 am on Monday, November 4, 2019.**

In order to apply, there is a checklist of items that must be addressed which is still in the process of being prepared by the Planning Department. Please continue to check the **Planning Department's portion of the City's website under "Applications and Info"** for updates. Thank you for your patience.
