

# Rain Gardens of Southfield

★ Rain Garden Locations

**Rain Gardens work for us in several ways:**

- \*Helping sustain adequate flows in streams during dry spells;
- \*Providing valuable wildlife habitat;
- \*Enhancing the beauty of your yard and the neighborhood;
- \*Helping protect communities from flooding and drainage problems;
- \*Helping protect streams and lakes from damaging flows and reducing erosion of the streambanks and lakeshores; and,
- \*Reducing the need for costly municipal storm water treatment structures.
